PROFESSIONAL SUMMARY:

- 10+ years of experience in Application and Production Support (L2 & L3) within the Banking Domain in both Consume Lending Technology, Credit Cards, and Business Services & Rewards (Digital Banking) and Digital Trading Platform (Capital Markets).
- Strong experience and knowledge in Amazon Web Services cloud environments.
- Proficient in AWS services, DevOps practices, incident management, change management as per ITIL standards and application lifecycle management Known for resolving complex technical issues, collaborating with cross-functional teams, practicing java code debugging related to databases, and providing top-notch customer support.
- Strong experience in the end-to-end support of the application starting from deployments, enterprise release management, testing, enhancement, bug fixes.
- Certified in SAFe for scrum master and involved in day-to-day activities and coordination with development, product, QA teams.
- Actively plan and execute the project with scrum methodologies and with JIRA.
- Promote agile principles and coach the team with planning out sprints, daily scrum calls, reviews and focus on productivity.
- Exceptional problem-solving skills and ability to work effectively in collaborative teams on vulnerability issues.
- Good knowledge in Observability like Splunk, Grafana, Datadog and App dynamics.
- Hands on experience working with SQL, Unix, Shell Scripting and Java.
- Daily Operations involve System/Application alert handling and response/troubleshoot and deep drive to applications.
- Experience in technical trouble shooting and monitoring which includes modification of scripts to resolve or automate any manual efforts.
- Work closely with development teams to assist in developing patches, updates and scripts to resolve customer issues.
- Good knowledge on NDM job scheduled, Autosys and IBM MQ / Rabbit MQ servers.
- Good knowledge in IBUS integrated systems, Route53 and ELB services.
- Hands of experience in both Linux and windows servers.
- Working and testing the applications and upgrades in multiple environments like QA, UAT, SIT and Production.
- Handling BCP/DR activity of entire application once in a year with complete infrastructure and database.
- SPOC for all operation and technical issues and interact with customers and resolve their issues and close as per SLA's.
- Working on multiple reports, monthly summary of data using power-bi and automating the dashboard.
- Strong communication skills with a proven track record of delivering high-quality customer support.
- Dedicated and adaptable team member with a proactive approach to taking ownership and contributing to team success and ability to maintain the team and drive thorough the complex issues.
- Knowledge on ETL chef databags and code enhancement through Git, TeamCity and ADOPS pipelines.
- Delivered responsibilities as Team Leader, Support Engineer, Product/Business Analyst and Tester.
- Functional domain experience includes Banking, Finance, Trading, Bonds oriented organization.
- Dynamic, self-starter, quick learner with a strong sense of responsibility & positive attitude with proven ability to work as a team player as well as an individual.
- Effective communication, interpersonal skills and commitment to performance excellence.

TECHNICAL PROFICIENCIES:

- Operating Systems: Linux, Windows
- Programming Languages: Java, Shell Scripting, XML
- Databases: SQL, Postgres
- Cloud Databases: DynamoDB
- Cloud Environments: AWS, AWS EC2, Microsoft Azure, ECS
- Cloud Services: AWS Lambda, AWS SNS, Route53, ELB
- Cloud Storage: AWS S3
- ETL: Pentaho, Rundeck
- DevOps Tool: Jenkins, ADOPS
- Tools: Snow-SQL, SQL plus, Toad, SQL Developer, SQL Loader
- Version Control Tool: GitHub, TFS, TeamCity
- Data Visualization tools: Jira, Power BI
- Monitoring tools: Putty, WinSCP, Splunk, AppDynamics, CloudWatch, ServiceNow, Datadog and Centreon
- Reporting tools: Jira, Confluence, ServiceNow
- ITIL Standards: Incident Management, Change Management and Problem Management

EDUCATION:

- Bachelor of Science in Computer Science; Andhra University, Eluru, India 2008-2012

PROFESSIONAL EXPERIENCE:

S&P Global Inc.

12/2020 – Till date

Application Support Engineer

Project Name: DataMart (Data Analytics and Reporting), Buyside Portal & Ipreo Auth
