EDUCATION

Oregon State University - Bachelor of Science, Computer Science

June 2019 – June 2024 | GPA: 3.71

Relevant Courses: Operating Systems I and II, Translators, Computer Architecture, Mobile Software Development, Advanced Web Development

TECHNICAL SKILLS

Software Tools: MATLAB, LTSpice, RStudio, Visual Studio, MobaXterm, Android Studio

Programming Languages: C/C++, JavaScript/HTML/CSS (Web Development), SQL, Python, R, Kotlin, Java

Web Development: React JS, API Integration, Responsive Design, Node.js

COMPUTER SCIENCE PROJECTS

Revature - Social Media Blog API Project Length: 1 month

Built an **API backend** of a social media application meant to manage user accounts and messages March 2025

- Built RESTful API backend using Java and Javelin
- Followed MVC architecture; managed users and messages via SQL database
- Developed and tested endpoints for account and post management

Oregon State University, Advanced Web Development Length: 1 month

Designed a resume uploading website for people to give/receive feedback with a team of 4 March 2024

- Learned and utilized **React JS** to design a responsive web application
- Integrated a **third-party API** to populate screen with pdfs
- Improved usability by optimizing the site for mobile screens

Oregon State University, Introduction to Databases Length: 3 months

Produced a CRUD-enabled Pokemon database application using **SQL** and **Javascript** March 2022

- Records 5 different entities: Pokemon, Cities, Types, and Gym Leader information
- Documented entity relationships through an Entity-Relationship Diagram to streamline schema design

Additional Projects...

- Developed server-client communication channel using **Python** sockets and **RabbitMQ**, ensuring secure and efficient data exchanges – [March 2022]
- Experimented with **C#** and **Unity** to develop a project that provided a user of VR info about the components of a Harvester triggered by the Raycaster through UIs [June 2023]

LEADERSHIP JOBS AND ACTIVITIES

Code Ninjas at Hillsboro Schools Length: 1 month

Coding Teacher September 2024 – Present

- Directed classroom of 20-22 middle school students
- Used MakeCode Arcade to teach game development concepts to students
