EXPERIENCE

SENIOR FULL-STACK DEVELOPER | FREELANCECONSULTANT

May 2021- Feb 2025 | Wilton, CT

- Delivered 10+ production-grade web apps with React, Next.js, Node.js, and MongoDB, handling both frontend architecture and backend API design.
- Designed and implemented secure, scalable data pipelines to ingest and transform large financial datasets.
- Worked closely with startup founders to scope, prototype, and iterate quickly in lean product environments.

FULL-STACK DEVELOPER | YELLOWBOX GROWTH AGENCY

July 2019- Jan 2021 | Charleston, SC

- Built and maintained multiple B2B platforms using MERN.
- Created complex CRUD and reporting features for a logistics SaaS platform that processed thousands of records daily.
- Participated on the Web Development Taskforce to provide React.js sites to internal customers.
- Implemented role-based access control, dashboard analytics, and optimized SQL queries for performance at scale.
- Worked with a team to plan executive visit and team-building exercise for 200 employees.

CO-FOUNDER, CTO | TELLASCAPE

Oct 2017- Jan 2019 | Virginia Beach, VA

- Location-Based Social MVP Revamped UI/UX and optimized GPS tracking algorithms, improving location accuracy within geo-fence parameters by 40%.
- High Impact Development Presented technical and market viability to investors, demon-strating robust project management, innovative tech, and strategic vision secured 6 figures in funding.

PROJECTS

PERCEPTA | CONTEXT ENGINE & PERSONAL ASSISTANT

- Developed an adaptive AI that continuously observes and learns from user behavior, delivering predictive insights entirely offline using local LLMs.
- Implemented automated testing for the software development lifecycle, reducing bugs in production by 25% and improving software reliability.

GITSMART | AI-POWERED VERSION CONTROL

- Reduced version control overhead by 90% through local AI powered diff analysis, automating meaningful commit messages and release notes.

EDUCATION

COLLEGE OF CHARLESTON

BACHELOR OF SCIENCE IN

COMPUTER SCIENCE

2015- 2019 | Charleston, SC

Dean's List (for exceptional academic performance)

SKILLS

LANGUAGES

JavaScript, TypeScript, Python, CSS/SCSS

FRAMEWORKS

React.js, Next.js , Node.js, Express.js, Django, Flask, Bootstrap, TailwindCSS, MUI, Radix UI

DATABASE

MySQL, PostgreSQL, SQLite, MongoDB, Redis, Supabase

CLOUD AND DEVOPS

Docker, Github Actions, Vercel, Heroku, AWS, Azure

TESTING TOOLS

Jest, Morcha, Cypress

SOFT SKILLS

Agile/Scrum, CI/CD, Pair Programming, Code Reviews, Excellent Communication

COURSEWORK

GRADUATE

CSCI I, CSCI II, Data Structures and Algorithms, Website Development, Website Interface and Design, Discrete Structures, Calculus
