

PROFESSIONAL SUMMARY

Highly experienced computer forensics and eDiscovery professional, with extensive knowledge of incident response. Specialized in complex fraud and internal investigations and skilled in analyzing various systems with over ten years of experience. Has held several professional certifications and is ambitious to take the next step into a high achieving role in industry to affect change and bring results in a new environment.

WORK EXPERIENCE

January 2024 - Present

Independent Consulting - Toronto, ON

- Providing advisory services in eDiscovery, digital forensics, and consulting dynamics on behalf of Dialectica, a leading research firm.
- Consulted on technology pricing statistics within the Financial Advisory services and drivers factoring into various pricing models.
- Discussed contributing factors like brand, customized applications and in-house products developed to enhance client retention and holistic client solutions.

June 2023 - December 2023

FTI Consulting, Inc - Director, Toronto, ON

- Managed multiple global eDiscovery projects relating to civil litigations, M&A, and disputes.
- Developed a customized workflow to link WhatsApp group chat messages received individually, saving review time.
- Provided training on RelativityOne to clients and reviewers and optimized their reviews using Relativity analytics.
- Adept at relaying complex, technical messages in simple but holistic terms to non-technical stakeholders like lawyers and management.

March 2020 - May 2023

KPMG LLP - Senior Consultant to Manager, Toronto, ON

- Consulted with provincial governments and private clients for multiple fraud and bribery investigations, serving as a primary point of contact.
- Worked on a global incident response (ransomware) engagement to get the client's Canadian firm back to operational status. The clients' Canadian firm was the first to return to business as usual within two weeks.
- Restored IT infrastructure post-incident such as Hyper-V, ESXi, VoIP servers, backups from tapes and Veeam software.
- Onboarded multiple clients and their engagements and coordinated with them for budgeting, billing and other project administration matters.
- Created a customized application in Relativity for a Personal Identifiable Information (PII) engagement to help the client code documents and generate reports using Relativity Dynamic Objects (RDO).
- Investigated unions for fraud and misconduct allegations relating to daily operations, vendors and employee benefits.
- Implemented legal holds using tools like Relativity, Microsoft Purview and Google Vault.
- Collected data from various cloud, physical and mobile sources using tools like Axiom, Cellebrite, FTK and other forensic tools.
- Facilitated successful cross-functional collaborations to complete four M&A engagements, eventually leading to additional work of over \$250,000.
- Coached and mentored 3 junior staff to maximize contribution and impact of their performance.

- Proficient in using tools like EnCase, FTK, X-ways, Oxygen, Axiom, Nuix, Cellebrite and experienced in deploying and using SentinelOne.

November 2018 - March 2020

PricewaterhouseCoopers LLP - Senior Associate, London, UK

- Experienced in working on insolvency and internal policy violation cases in the UK and European markets.
- Performed Relativity user acceptance testing for new versions of Relativity, and developed a proof of concept of Relativity processing for its implementation globally.
- Effectively manage competing priorities for litigations relating to the UK government inquiries and the US Department of Justice.
- Increased revenue on engagements through client relationships by over £300,000.
- Performed log analysis for various systems using tools like Excel, Alteryx and Tableau to create automated workflows and dashboards to present findings.

October 2013 - October 2018

PricewaterhouseCoopers Private Limited - Analyst to Consultant, Mumbai, India

- Investigated various industries' business email compromise, data recovery, and data theft cases.
- Coordinated with vendors for procurements, including cost negotiations and invoice management saving the practice \$100,000 yearly.
- Collaborated with departmental heads, general counsel and the C-suite to develop eDiscovery policies and procedures for one of India's largest IT firms.
- Trained Indian Police Service probation officers in digital and cellphone forensics and in-field analysis.
- Worked with the state police and government to develop digital forensics and cyber crime capabilities.
- Wrote a thought leadership on US Federal Rules of Civil Procedure, specifically relating to eDiscovery as an introduction for Indian businesses.
- Experienced in maintaining, troubleshooting, and upgrading the hardware and software infrastructure for Relativity, an eDiscovery platform.
- Managed Relativity databases and optimized their performance, using SQL queries and plans.
- Completed data quality checks for over 180 custodians in less than 50 days when expected in 65 days, and beat client expectations.

EDUCATION

- MSc. in Information Security - Royal Holloway, University of London, Egham, UK - 2011 - 2012
- Bachelor in Computer Applications - University of Pune, Pune, India - 2008 - 2011

CERTIFICATIONS

- RelativityOne Certified Pro, Relativity
- Relativity Generative AI Pro, Relativity
- Relativity Certified Administrator, Relativity (Pursuing)
- Certified in CyberSecurity (CC), ISC2
- Brainspace Certified Administrator, Reveal
- Computer Hacking Forensics Investigator v8 (CHFI), EC Council
- AccessData Certified Examiner (ACE)

CITIZENSHIP

- Canadian
