SUMMARY

Dynamic Senior Business Systems Analyst with extensive experience delivering impactful solutions across healthcare, retail, finance, and eCommerce industries. Expert in Agile methodologies, SDLC phases, and cross-functional collaboration, driving project success through strategic use of Jira, Confluence, and Salesforce. Spearheaded implementations of Salesforce modules and AWS Cloud solutions, enhancing scalability and operational efficiency. Skilled in leveraging SQL and Power BI to support data-driven decision-making with precise reporting and insights. Adept at leading UAT testing, GAP analysis, and requirements gathering to ensure seamless delivery of business-critical solutions. A strong advocate of automation, streamlining regression testing processes using Selenium and enhancing overall release quality. Proven ability to bridge business needs with technical solutions, optimizing workflows and fostering continuous process improvement across diverse teams.

TECHNICAL SKILLS

Project Management: Jira, Confluence, MS Visio, Product Backlog, Sprint Backlog, Documentation

Data Analysis: SQL, Power BI, Tableau, MySQL, AWS Cloud

Testing & Automation: Selenium, Test Cases, GAP Analysis, Postman API, UAT

Business Process Mapping: BPMN Diagrams, MS Visio, Process flow diagrams

Agile Methodologies: Scrum, SDLC Phases, Requirements Gathering, UAT Testing, Sprint Planning

CRM Systems: Salesforce CRM

Cloud Platforms: AWS Cloud, Salesforce Cloud

Database Management: MySQL, SQL

PROFESSIONAL EXPERIENCE

UnitedHealth Group, MN

May 2021 – present

Business Systems Analyst

- Enhanced **Agile sprint backlogs** and **Jira task tracking**, increasing **team collaboration** by 25% and improving **sprint velocity** for IT deliverables.
- Designed **UAT testing strategies** with **Power BI** and **SQL**, reducing **defect leakage** by 18% while ensuring comprehensive **use case coverage**.
- Performed **GAP analysis** to align **business requirements** with **Salesforce integrations**, ensuring smooth **system upgrades** and **module implementation**.
- Created detailed **process maps** in **MS Visio**, identifying workflow optimizations to streamline **process automation** and **business efficiency**.
- Conducted **requirement-gathering workshops**, minimizing **scope changes** by addressing core **stakeholder needs** during the **SDLC**.
- Managed **product and sprint backlogs** in **Jira** and **Confluence**, ensuring accurate **documentation** and aligning with **Agile practices**.
- Implemented **Salesforce solutions**, enhancing **CRM functionalities** and driving higher **user adoption rates**.
- Developed and maintained **SQL-driven reports** to monitor key **KPIs**, enabling accurate, real-time insights for **business decisions**.
- Automated **test cases** using **Selenium**, increasing **test coverage** while reducing **manual regression testing** time.
- Built interactive **Power BI dashboards**, improving **stakeholder engagement** with actionable insights for **data-driven decision-making**.
- Streamlined **cross-functional collaboration** using **Confluence**, reducing project delays and enhancing **team productivity**.
- Advocated for **Agile methodologies**, delivering **MVPs** faster and increasing team maturity in **Scrum practices**.
- Conducted **SQL-based data validation** to ensure data accuracy for operational and reporting purposes.
- Mentored **Scrum teams**, promoting best practices to foster a culture of **continuous improvement** and boost productivity.
- Oversaw **post-production testing** and **release cycles**, ensuring seamless deployment and minimizing **production defects**.

Costco Wholesale, WA

Apr 2019 – Mar 2021

Business Analyst

- Accelerated **Agile framework adoption**, increasing **sprint velocity** by 18% and reducing **time-to-market** for **retail technology solutions** by 12%.
- Spearheaded **AWS cloud adoption** for **data integration**, enhancing **scalability** by 25% and reducing **operational costs** by 15%, optimizing Costco's retail operations.
- Designed and executed **SQL queries** for **data analysis**, ensuring accurate reporting and enabling **data-driven decisions** across multiple business units.
- Facilitated the creation of **Power BI dashboards**, providing real-time insights into **supply chain performance** and **inventory management** metrics.
- Directed **UAT testing**, improving **test case refinement** and reducing testing cycles, which improved **defect detection rates** by ensuring robust system functionality.
- Collaborated with key **stakeholders** to define and document **requirements**, streamlining development processes and reducing **post-launch issues**.

- Mapped and optimized **business processes** in **MS Visio**, identifying inefficiencies and improving workflows for **retail and logistics operations**.
- Led **Tableau integration** for enhanced **data visualization**, enabling faster insights into **customer trends** and **sales performance**.
- Managed **Jira-based product backlogs**, refining user stories to provide clear, actionable development goals.
- Developed **MySQL database integrations**, improving **data extraction** and **reporting accuracy**, supporting better business intelligence.
- Streamlined **documentation processes**, ensuring clarity in deliverables and reducing miscommunication within cross-functional teams.
- Strengthened **cross-functional collaboration** using **Confluence**, aligning project objectives and minimizing revision cycles for technology implementations.

2X2 Consulting, VA

Nov 2017 – Apr 2019

Business Analyst

- Streamlined **SDLC processes**, reducing project turnaround times by 15% through enhanced **requirement gathering** and alignment with **banking compliance** needs.
- Directed **UAT testing** for key **banking initiatives**, increasing **defect detection rates** by 18% and minimizing **go-live risks** for critical financial systems.
- Conducted **GAP analysis** to ensure seamless **system upgrades** and alignment with **business objectives**, reducing **post-implementation issues**.
- Optimized **business process mapping** in **MS Visio**, identifying inefficiencies and improving **operational workflows** for banking operations.
- Managed **Jira-based product backlogs**, enabling efficient **sprint planning** and prioritizing **business-critical banking tasks**.
- Facilitated **cross-team collaboration** for **Salesforce CRM implementations**, increasing **client relationship management effectiveness** and boosting adoption rates.
- Executed **SQL-based data analysis**, delivering accurate and actionable insights to **leadership teams** for strategic decision-making.
- Streamlined documentation of key **financial processes**, reducing ambiguity and enhancing **project execution** efficiency.
- Trained **business stakeholders** on new system implementations, improving **user adoption** and reducing **post-launch support tickets**.
- Collaborated with **cross-functional teams** to define **business requirements**, ensuring alignment with **regulatory standards** and reducing scope changes.
