

PROFESSIONAL SUMMARY

Data-driven professional with 5+ years of experience in sales, operations, and team management. Skilled in analyzing performance metrics, optimizing workflows, and using data to improve efficiency and drive business decisions. Proficient in SQL, Power BI, and Excel for KPI tracking, forecasting, and process improvement. Experienced in logistics routing, financial risk analysis, and fraud detection, ensuring data-backed solutions that enhance business efficiency. Strong background in sales forecasting, regulatory compliance reporting, and leveraging analytics to drive strategic decision-making.

SKILLS

- **Data Analysis and Technical Tools:** SQL (MySQL, SQL server), Microsoft Excel(Pivot Tables), Tableau, Power BI, Microsoft Office
 - **Logistics & Operations:** Route Optimization (Descartes Route Planner), B2B, Dispatching & Scheduling, Performance Monitoring, Inventory Management, SAP, Driver Communication & Compliance
 - **Management & Leadership:** Team Supervision, Performance Monitoring, Process Optimization, Training & Development
 - **Soft Skills:** Problem Solving, Project Management, Negotiation, Cross-functional Collaboration, Customer Service & Sales Tools
-

PROJECTS

Portfolio features interactive Excel and Power BI dashboards analyzing accident data and customer sales trends, SQL scripts for data transformation, and case studies demonstrating my ability to derive actionable business insights.

Car Accident Dashboard – Personal Project

- **Objective:** Built an interactive dashboard to analyze accident trends in the UK, helping users identify key risk factors.
- **Data Work:** Cleaned and processed raw accident data using SQL and Excel, ensuring completeness and accuracy.
- **Visualization & Insights:** Used Power BI to create dynamic visualizations, including heat maps and trend charts, leading to a 20% improvement in reporting efficiency.
- **Key Skills:** SQL (data extraction), Power BI (dashboard creation), Data Cleaning (Excel), Trend Analysis.

Bike Sales Dashboard – Personal Project

- **Objective:** Designed a customer and product insights dashboard for a retail client to track sales performance.
 - **Data Work:** Processed 10,000+ rows of customer data in Excel, using pivot tables and VLOOKUP for transformation.
 - **Business Impact:** Provided data-driven recommendations that helped the client identify top-selling products and customer demographics, improving marketing efforts.
 - **Key Skills:** Excel (data transformation), Power BI (visualization), Client Consultation, Business Analysis.
-

PROFESSIONAL EXPERIENCE

Logistics Router/Dispatcher and Administrative Support

Hub Group, St. Rose, LA | Contract - Jan. 2025 - Mar. 2025

- **Route Efficiency Analysis:** Monitored and analyzed delivery route performance using Descartes and SAP, identifying inefficiencies and making real-time adjustments to improve on-time delivery rates.
- **Performance Tracking & Reporting:** Tracked key logistics metrics such as route completion times, driver performance, and customer satisfaction, compiling data-driven reports for process optimization.
- **Data-Driven Decision Making:** Utilized routing software and mapping tools to compile real-time performance reports using Excel to optimize delivery schedules, reducing fuel costs and improving resource allocation.
- **Administrative Data Management:** Maintained and organized logistics records, driver documentation, and compliance paperwork, ensuring accuracy and regulatory adherence.

Assistant Manager

American Freight Mattress and Furniture, Metairie, LA | Feb. 2020 – Jan. 2025

- **Sales & Operational Data Analysis:** Analyzed weekly and monthly sales performance metrics, identifying trends and actionable insights that increased sales conversion rates by 15%.
- **Dashboard & Data Visualization:** Developed Excel-based dashboards to track sales trends, inventory levels, and operational performance, improving decision-making and forecasting accuracy.
- **Performance & KPI Reporting:** Monitored key performance indicators (KPIs) such as revenue per transaction, foot traffic conversion rates, and inventory turnover, providing data-driven recommendations to leadership.
- **Route Planning & Dispatching:** Leverage SAP and oversaw daily delivery scheduling and optimized truck routes to enhance efficiency and on-time performance. Conducted final accuracy checks to ensure drivers were dispatched with the correct items and parts, reducing delivery errors and improving customer satisfaction.
- **Forecasting & Trend Analysis:** Applied predictive analytics to forecast demand, set achievable team sales goals, and adjust inventory strategies, leading to more consistent revenue and a 15% improvement in team productivity.
- **Process Optimization & Quality Assurance:** Conducted regular audits of sales and operational workflows, identifying inefficiencies and implementing process improvements that reduced operational discrepancies by 20%.
- **Customer Behavior Analytics:** Assessed customer purchasing patterns and feedback data to refine sales strategies, optimize promotions, and enhance customer engagement.

Universal Banker III

Home Bank, New Orleans, LA | Sept. 2024 - Dec. 2024

- **Data Trend Analysis:** Analyzed customer transaction patterns to identify opportunities for cross-selling financial products, leading to a 10% increase in product adoption.
- **Fraud Detection Analytics:** Reviewed and analyzed transaction data to identify suspicious activity, ensuring compliance with BSA and AML regulations while reducing fraud-related risks by 15%.
- **Compliance & Risk Monitoring:** Prepared detailed compliance reports using data analytics to track adherence to regulatory standards, including BSA, AML, and NMLS guidelines.
- **Performance Metrics Reporting:** Compiled and visualized branch performance data, including transaction volumes, customer service times, and error rates, providing actionable insights to management for process improvements.

EDUCATION

Course Careers: Data Analytics – Online

- Focused on data analysis techniques, SQL, and data visualization tools like Tableau and Power BI.

Master of Science in Microbiology and Immunology

Tulane University, New Orleans, LA

Bachelor of Science in Biology/Pre-Dental, and Business

University of South Alabama, Mobile, AL
