

Kundana, Chukka

[LinkedIn](#) | ckundana4@gmail.com | Arlington, VA

SUMMARY

Software Engineer proficient in designing and building scalable solutions in the cloud. Skilled in Java and SQL, with expertise in data structures, algorithms, and distributed systems. Experienced in debugging large-scale systems, optimizing performance, and ensuring system reliability. Passionate about developing impactful software systems that meet business needs, ensure compliance and enhance user experience

PROFESSIONAL EXPERIENCE

Amazon

Arlington, VA

Software Development Engineer

June 2022 - Present

- Designed and implemented scalable microservices on AWS for books catalog ingestion systems, to deliver stable, high-quality metadata.
- Developed backend Java APIs to ensure compliance with country-specific tax and invoicing regulations, supporting seamless market expansion.
- Built serverless functions to handle business logic, process data, and integrate with various cloud-based services like DynamoDB, and SQS etc.
- Led design reviews and conducted code reviews to uphold best practices, including testability and efficiency.
- Collaborated with owning teams to design and backfill new catalog metadata attributes for enterprise book publishers, ensuring consistency and workflow continuity.
- Developed monitoring dashboards and alarms, enhancing system health and reducing downtime by 25%.
- Participated in on-call rotations, triaging critical issues, identifying root causes, and implementing immediate fixes.
- Developed cloud infrastructure as code in TypeScript and services in Kotlin leveraging AWS CDK.
- Automated data analysis workflows using Python, contributing to actionable business insights.
- Created accessible UI solutions in Angular and TypeScript, resolving 50+ issues to comply with global accessibility standards.

SKILLS

- **Programming Languages:** Java, C, Kotlin, Python, SQL, TypeScript
- **Cloud Technologies :** AWS(Lambda, S3, Step Functions, API Gateway, DynamoDB, SQS), Azure
- **Frameworks & libraries:** REST APIs, Spring Boot, JUnit, Mockito, MockK, Angular, Scikit-learn, Pandas, Matplotlib, Seaborn, D3.js
- **Database Technologies:** MySQL, NoSQL, DynamoDB, RedShift, Athena
- **Other Technologies:** Git, Gradle, Maven, Docker, Kubernetes

EDUCATION

University of North Carolina at Charlotte - Charlotte, NC

May 2022

Master of Science in Computer Science - Data Science and Management

3.88 GPA

Jawaharlal Nehru Technological University - Kakinada, India

July 2020

Bachelor of Technology in Computer Science and Engineering
