

MUHAMMAD NAQQASH TAHIR

SENIOR FULL STACK DEVELOPER

Brooklyn, NY | 11229 | +1 929-412-2743 | naqqash.dev@gmail.com

Profile

With over 12+ years of experience as a Senior Full-Stack Developer, I have honed my skills in a variety of web technologies, including C#, JavaScript (ES5/ES6), Angular, TypeScript, .NET Framework, ADO.NET, Entity Framework, .NET Core, ASP.NET, HTML5, CSS3, PHP, WordPress, Drupal, Laravel, SQL, MS SQL Server, MySQL, PostgreSQL, and GraphQL. I have successfully constructed and revamped numerous highly scalable, cross-platform, and cross-browser web applications. My approach emphasizes creating significant value through my work. As a US citizen, I am authorized to work for any US employer.

Technical Skills

Languages and Databases: Python, PHP, CSS, C#, C#, JavaScript, TypeScript

Microsoft SQL Server, MySQL, XML, LINQ,

Frameworks & Libraries: ASP.NET, .NET Core, Entity Framework, ADO.NET, Angular, Bootstrap, Node.js (Express), Laravel

Other Skills: Git, Jenkins, Unit Testing, APIs, SOAP, AWS, User Interface (UI), Wordpress

Experience

GYNGER - NY

Senior Full Stack Developer | September 2020 to Present

- **Superhead** the development of **15+ enterprise-level web applications** across finance, healthcare and e-commerce domains, leveraging **Angular for front-end** and **.Net Core for back-end**, ensuring seamless user experiences and robust performance.
- **Engineered MVC-based back-end architectures** using **.Net Core**, integrating **SQL & NosQL databases** via **Entity Framework**, optimizing query performance by **35%** and reducing latency.
- **Designed & deployed interactive SPAs** with **Angular, HTML, CSS, Bootstrap and Material UI**, improving page load speed by **40%** through lazy loading and modular design.
- **Led the migration of legacy applications** from **React to Angular (vice versa)**, reducing technical debt by **25%** while maintaining **100% feature parity**.
- **Implemented Agile-driven refactoring** for legacy systems, resolving **200+** critical bugs and accelerating feature deployment cycles by **30%**.
- Boosted front-end efficiency by introducing **reusable Component Libraries**, cutting development time by **20%** and ensuring **UI/UX consistency** across **8+ applications**.
- **Architected high-performance database** by designing **logical/physical ERDs** and optimizing **SQL queries**, enhancing data retrieval speeds by **50%**.
- **Modernized legacy wordpress & PHP systems**, developing **custom plugins** for **Drupal, Magneto and headless CMS**, improving functionality and reducing maintenance overhead by **15%**.
- **Fortified application security** by integrating **OAuth 2.0, JWT and AES** encryption, achieving **zero critical vulnerabilities** in penetration tests.
- **Automated documentation workflows**, reducing onboarding time for new developers by **40%** while maintaining **100%** compliance with audit requirements.

CONFIDO - NY

Full-Stack Developer | January 2013 to August 2020

-
- **Developed scalable back-end APIs** using **.NET Framework**, improving data processing speeds by **30%** and reducing latency for **5+ web/mobile applications**.
 - **Engineered dynamic front-end interfaces** with **HTML, CSS3, Bootstrap, JavaScript, TypeScript, jQuery, and Ajax**, enhancing state management efficiency and reducing UI rendering time by **25%**.
 - **Automated critical data workflows** via **custom scripts**, cutting manual data-fetching tasks by **40%** and ensuring real-time synchronization across multiple databases.
 - **Modernized legacy WordPress sites**, converting **10+ non-responsive themes** into **mobile-optimized layouts**, increasing mobile traffic by **15%**.
 - **Deployed and maintained cloud-hosted applications** on **AWS, Azure, and Heroku**, reducing downtime by **20%** through optimized CI/CD pipelines.
 - **Strengthened code reliability** by writing **300+ unit tests** (Jasmine, xUnit), decreasing post-release bug reports by **35%**.
 - **Streamlined API documentation** using **Swagger**, improving team onboarding speed and reducing miscommunication in API integrations.
 - **Enhanced cross-platform compatibility** by refining **responsive CSS3/Bootstrap layouts**, ensuring seamless performance across **Chrome, Firefox, and Safari**.
 - **Provided direct client support**, resolving **50+ technical issues** and improving customer satisfaction scores by **18%**.

Education

CITY UNIVERSITY OF NEW YORK
BS Computer Science | 2009 – 2013
