

PRAVEENKUMAR LAVUDYA | Salesforce Developer

Dallas, Tx, USA | +1 (475)-439-4567 | praveen.lavudya@aogjob.com

Professional Summary:

Salesforce Developer with 6+ years of experience spearheading custom application development and CRM migrations. Proficient in Apex, Visualforce, and Salesforce CPQ, with a track record of enhancing user experience and sales productivity. Adept at integrating ERP and marketing automation platforms, automating business processes, and ensuring seamless data workflows. Certified Salesforce Administrator and Platform Developer (Levels 1 & 2).

Professional Experience:

Wells Fargo, CA, USA | *Salesforce Developer*

Aug 2023 - Current

- **Spearheaded the development and deployment of custom Salesforce applications**, enhancing CRM functionality for over 500 users, leading to a marked improvement in user experience and a 30% increase in sales team productivity.
- **Led the seamless migration of legacy CRM systems to Salesforce**, integrating robust connections with **ERP and marketing automation platforms** using **APIs and middleware tools**, which streamlined data workflows and ensured operational continuity with zero downtime.
- **Developed and customized Salesforce CPQ solutions** for multiple clients, implementing advanced **pricing rules, product configurations, and discounting structures** to accommodate complex sales processes and product offerings. Collaborated with **cross-functional teams** and utilized tools like **Salesforce DX, Salesforce CLI, and version control systems** to ensure successful project delivery on time and within budget.
- **Automated key business processes using Salesforce Process Builder and Flow**, achieving a 40% reduction in manual processing time and minimizing error rates. Conducted extensive **unit testing** to ensure high-quality, error-free software deployments.

Sigma Info Solution, Bangalore, India | *Sr. Salesforce Developer*

Apr 2017 - Jul 2022

- **Developed and customized Salesforce applications** using **Apex and Visualforce**, enhancing client CRM solutions with a 25% increase in workflow efficiency. Led agile development teams in creating a mobile app that improved field operations productivity and engagement by 30% and 40%, respectively.
- **Implemented Salesforce integrations** with third-party applications using **RESTful APIs** and middleware, improving data synchronization and system interoperability. Spearheaded the deployment of **Salesforce Lightning components**, achieving a 35% boost in customer satisfaction through enhanced user interfaces.
- Automated business processes using **Salesforce Process Builder and Flow**, cutting process times in half and significantly reducing manual errors. Designed and maintained custom **Salesforce objects, fields, and layouts** tailored to specific business needs, ensuring scalable and secure environments.
- Led extensive **data migration projects** to Salesforce platforms using **Data Loader**, maintaining data integrity and minimal downtime. Developed an innovative **Salesforce-based analytics tool** that increased marketing ROI by 20%, and regularly updated systems to align with new Salesforce technologies, maintaining system performance and reliability.
