Summary

Results-driven professional with a robust engineering background and extensive experience in project management, data analysis, and product optimization. Expertise in utilizing engineering principles to drive improvements in operations, including demand forecasting and inventory management. Proven ability to identify and solve complex problems, streamline processes, and enhance customer satisfaction.

Experience

Customer Service Manager

Big Lots

Jul 2024 - Jan 2025 (7 months)

Managed and trained a team of customer service associates to ensure high standards of customer care, resulting in improved customer satisfaction scores and a 15% increase in team productivity.

Addressed and resolved customer complaints and escalations, implementing solutions that improved the customer experience and helped reduce return rates by 10%.

Streamlined in-store processes, such as order fulfillment and inventory management, leading to a 20% decrease in wait times at the checkout and enhanced operational efficiency across the store.

Senior Product Engineer

ClassLink

Aug 2022 - Present (2 years 7 months)

Implemented Agile Methodology and Scrum Framework to streamline product development processes, achieving a 25% reduction in time-to-market for new features.

Conducted Ceremony Facilitation and maintained Backlog Management to ensure efficient resource allocation and project alignment.

Monitored Velocity Tracking and applied Risk Mitigation strategies to enhance operational efficiency and maintain timelines.

Identified opportunities for Process Improvement to reduce support tickets by 10% and enhance customer satisfaction.

Leveraged Data Analysis and Metrics Reporting to assess customer feedback and historical data, refining product development strategies by creating internal technical documentation. Applied Problem-Solving Frameworks to predict future customer needs.

Product Support Specialist

ClassLink

Aug 2019 - Jul 2022 (3 years)

Successfully resolved an average of 100 customer support tickets daily, leveraging strong product knowledge to address complex technical issues. This helped uncover customer demand patterns and supported effective backlog management and quality assurance initiatives.

Spearheaded the development and implementation of a comprehensive knowledge base system, reducing average response time by 50%. This effort enhanced workflow optimization, aligned with IT

standards compliance, and demonstrated an ability to streamline processes effectively for improved operational outcomes.

Analyzed and optimized existing SQL queries to improve system efficiency and ensure reliable data management. This work supported informed decision-making in risk mitigation and stakeholder reporting processes.

Operations Customer Service Manager

A & E Fine Art Inc.

Jan 2019 - Aug 2019 (8 months)

Implemented strategic and timely updates to the website and inventory management system, enhancing user experience and enabling timely order processing in a fast-paced environment.

Developed and executed social media campaigns to promote exhibitions, increasing customer engagement and sales, while enhancing understanding of market trends for effective demand forecasting.

Managed the gallery's inventory and e-commerce platform, ensuring optimal stock levels to meet demand while minimizing excess inventory costs, demonstrating effective inventory level management.

Education

New Jersey Institute of Technology

Bachelor of Science, Engineering Technology (Medical Informatics)

Honor Roll

NJ STARS Scholarship Recipient

3.8 GPA

Licenses & Certifications

Scrum Master Certified (SMC) - Scrum Alliance

Issued Apr 2024 - Expires Apr 2026

Certified Scrum Product Owner (CSPO) - Scrum Alliance

Issued Apr 2024 - Expires Apr 2026

Skills

Design Thinking • Organizational Needs Analysis • Continuous Improvement • Microsoft Power BI • Project Planning • Scenario Testing • Customer Service Operations • Supply Chain Optimization
