EDUCATION

Bradley University

May 2025

MS, Computer Science with Concentration in Data Science

GPA 4.0

Coursework: Fundamentals of Software Engineering, Data Mining, Machine Learning, Artificial Intelligence, DBMS, Algorithms, Fundamentals of Data Science, Advanced Computer Architecture, Software Project Management, Requirements Development, Agile Software Development

Aditya Engineering College

B.Tech., Electrical & Electronics Engineering

SKILLS & CERTIFICATIONS

Analysis and Visualization Tools: Tableau, Power BI, Weka, IBM Rational, Smart Draw, Microsoft Visio, Visual Paradigm, Google Analytics

Programming: SQL, Python, C, C++, JavaScript, HTML, CSS, R,

Databases: MS-SQL Server, MySQL

Other Skills: NumPy, Pandas, Matplotlib, Scikit-learn, Seaborn, Google Suite, MS-Office Suite, Microsoft Project, ERD Plus

Other Tools: Jira, Salesforce

Certifications: Project Management, Digital Marketing certified associate

PROFESSIONAL EXPERIENCE

Bradley University, Peoria, IL

Graduate Assistant

January 2023 – Present

- Conducted in-depth research and data analysis, leading to 2 published academic papers in Springer (ISBN: 978-981-97-4954-6) and 9+ departmental presentations, supporting ongoing research initiatives.
- Designed 10+ data visualizations to translate complex research insights into clear, engaging formats, improving accessibility and decision-making for faculty and students.

Apple Inc., Hyderabad, India

Annotation Analyst

April 2021 – July 2023

- Trained AI models to accurately classify 100,000+ images based on textual descriptions, leveraging machine learning techniques and data annotation, improving visual recognition accuracy by 20% through precise data annotation.
- Analysed incorrect AI responses, systematically refining the model to enhance response accuracy, contributing to a 15% improvement in user query resolution.
- Optimized AI decision-making by training the Large Language Model (LLM) to select the most relevant responses, increasing contextual accuracy by 25%.
- Served as the Local Point of Contact (LPOC) for the US, leading monthly Error Trend Analysis (ETA) initiatives, curating content, and providing data-driven insights that reduced classification errors by 30%.

Accenture, Hyderabad, India

Business Analyst

March 2017 – March 2021

- Developed and implemented 10+ interactive dashboards to track key productivity metrics, increasing operational visibility and enabling 20% faster decision-making.
- Analysed millions of data points to identify operational inefficiencies, leading to process optimizations that improved performance by 15%.
- Designed and delivered 50+ executive reports with advanced data visualizations, simplifying complex datasets into actionable insights that influenced weekly and monthly business strategy discussions.

Wipro, Kolkata, India

SME (Subject Matter Expert)

September 2015 – March 2017

- Provided real-time support for 100+ cases per week, ensuring 95%+ adherence to resolution targets and improving case turnaround times.
- Led a team of 15+ analysts, driving productivity, quality, and customer satisfaction, resulting in a 20% increase in service efficiency.

ACADEMIC PROJECTS

Data Science Project (WEKA)

- Analysed large, complex datasets with numeric and nominal values, performing data cleansing and applying 10+ ML algorithms (e.g., decision trees, neural nets, regression). Conducted statistical analysis to identify the best model and experimented with hybrid models using stacking and boosting techniques.

Airline Ticket Reservation System

- Designed a robust database system using ER diagrams, schemas with front-end development in HTML/CSS and backend integration using Node.js for efficient server-side operations.

Business Analytics System & Learning Analytics System

- Developed a comprehensive business analytics and learning analytics platform designed to integrate various data sources for real-time analytics, improving decision-making processes and operational efficiencies across departments.
- Incorporated Software Project Management which focused on development of project scope statement, human resource management plan along with time, cost, and risk management plan.
