Data Analytics Project

Exploratory Research & Analytics

East Texas A&M (Fall 2024)

- Analyzed sales and marketing data using Excel and SPSS, identifying trends that led to increase in marketing campaign ROI.
- Built interactive dashboards in Tableau, providing actionable insights on customer retention and churn rates.
- Developed predictive models to forecast inventory needs and reduce stockouts.
- Collaborated with the project team to optimize data collection and reporting processes.

Dallas/Fort-Worth Air Pollutants Analysis

East Texas A&M (Fall 2024)

- Conducted exploratory data analysis (EDA) on a dataset to identify key effects and trends.

- Cleaned and transformed raw data and created visualizations to present findings.
- Proposed data-driven recommendations to improve decision-making processes in the project scope.
- Responsible for data identification, collection, exploration, cleaning for modeling.
- Gathered data from multiple web, external data sources, writing SQL to join and aggregate various data for analysis.

Work Experience

Data Operation Analyst

01/2024 – Present

Konvas AI – Austin, TX

- Designed, implemented, and optimized ETL workflows to process large-scale Shopify customer and marketing campaign data, reducing query times by 42.7%.
- Managed and curated datasets for training and fine-tuning AI agents (copyright agent, supervisor agent, SQL agent), ensuring accurate customer segmentation and personalized marketing recommendations.
- Developed real-time data tracking dashboards to monitor the store's customer behavior and campaign performance, enabling iteration and optimization of AI-driven marketing strategies.
- Integrated external data sources (e.g., weather, social trends, customer demographics) into our platform, enhancing personalization capabilities for AI-driven email marketing campaigns.

Data Analyst

03/2021 – 12/2023

PayHelpa – Austin, TX

- Analyzed transaction patterns, exchange rates, and processing times to optimize PayHelpa's cross-border payments, reducing transfer costs by 22% and cutting transaction time by 38%.
- Collected, cleaned, and structured financial and transactional data from multiple sources, improving data quality and processing speed.
- Automated financial report generation, reducing manual workload and ensuring timely delivery of actionable insights to over 600 business owners through PayHelpa's AI-driven analytics engine.
- Identified patterns of fraudulent transactions and anomalies using predictive analytics, reducing fraud-related losses by \$130K annually and improving security measures.

Support Specialist

03/2018 – 04/2020

Grisset Enterprise – Arlington, TX

- Maintained high standards of customer service during high-volume, fast-paced operations

- Observed safety procedures for operations to ensure efficient delivery of services
- Cross-trained and coordinated scheduling with team members to ensure seamless service
- Demonstrated exceptional oral and written communication skills with customers, and management

Administrative Associate

07/2016 – 02/2018

Boskel Technologies Limited – Port Harcourt, Nigeria

- Supported designated office manager, and resolved clients' inquiries
- Processed transactions, maintained documentation and records
- Responded to correspondence from clients and business partners
- Prepared complex reports and professional presentations
