CERTIFICATIONS

Salesforce Admin (ADM 201)

PROFESSIONAL EXPERIENCE

PepsiCo

Technical Writer/ Proposal Writer

Hyderabad, TG, India

July 2022 - December 2024

- Collaborated with engineering, product managers, and subject matter experts (SMEs) to gather technical information and create clear, concise, and comprehensive user guides, API documentation, release notes, and system diagrams.
- Authored and updated Software User Manuals, Operator's Guides, and Maintenance Manuals for complex systems in structured and unstructured environments.
- Managed document updates across development lifecycles, ensuring timely revisions and adherence to schedule deadlines.
- Spearheaded the documentation process for a large-scale, enterprise-wide MCA (Manager's Control Assessment) implementation project within the Technology Controls division.
- Managed full lifecycle of RFQs, RFPs, and proposal responses—ranging from short letter proposals to multi-volume government submissions—for both private and public sector clients.
- Led strategic planning and content development from kick-off meetings to final delivery, collaborating closely with partners, client service teams, and technical staff.
- Created compelling, customized proposals that clearly articulated value propositions, competitive advantages, and firm capabilities across diverse practice areas.
- Conducted stakeholder interviews to gather technical input, developed win strategies, and tailored messaging to align with client needs and industry trends.
- Proven ability to translate complex technical or industry-specific topics into clear, engaging, and informative content.
- Authored and maintained detailed API documentation, integration guides, release notes, and technical manuals tailored for developers and system architects.
- Created visual aids including flowcharts, diagrams, and system architecture visuals using tools like Lucidchart and Visio to support complex technical concepts.
- Collaborated with customer support and product teams to collect feedback and continuously improve documentation based on user needs.

Smartserv

Technical Writer

Remote

May 2020 - June 2022

- Developed manuals and technical content for intelligence collection systems, incorporating system behavior, architecture, and user scenarios.
- Supported go/no-go decision processes by contributing market insights and competitive positioning perspectives.
- Continuously refined proposal processes to increase efficiency, win rates, and team collaboration.
- Maintained and organized content in documentation-as-code systems using HTML and Markdown, ensuring consistent updates and version control.
- Developed supporting collateral and presentations (Word, PowerPoint), maintaining brand consistency while adapting for proposal-specific requirements...
- Maintained documentation related to ground-based support platforms and system integration processes.
- Participated in content reviews with internal stakeholders to ensure accuracy and relevance of all deliverables.
- Adhered to security protocols and documentation standards required for sensitive environments.
- Wrote and embedded sample code snippets (Python, JavaScript) to demonstrate API usage and streamline integration for developers.

- Maintained documentation in Markdown, managed updates through GitHub, and published content using platforms like Confluence and internal CMS systems.

Mr.StudyBuddy

Associate Technical Writer

Remote

January 2018 - April 2020

- Led cross-functional coordination of documentation projects, ensuring all manuals and support materials were delivered on time and within scope.
- Collaborated with technical teams and end users to gather inputs and create task-based documentation.
- Worked in an Agile environment, participating in sprint planning and continuously iterating documentation based on evolving requirements.
- Managed tight turnaround projects with minimal supervision, delivering high-quality documentation within fast-paced, deadline-driven settings
- Reviewed and edited content authored by junior writers, ensuring consistency in tone, formatting, and structures
- Used project tracking tools like Jira, Confluence, and MS Office Suite to manage deliverables, feedback loops, and documentation timelines.
- Ensured compliance with confidentiality and quality standards across all publication deliverables
- Stayed current with industry trends and best practices in software documentation, developer experience, and technical communication.
