 goldsonam@gmail.com

CAREER SUMMARY:

Results-driven **ETL Developer** with **13 years** of experience in data integration and transformation using tools such as **Informatica, DataStage**, and **Ab Initio** and data replication tools like **Attunity**. Currently leveraging skills as an **Apigee Developer and Admin**, with a strong background in various roles including Production Support Analyst, Developer, and Technical Lead. **Certified Scrum Master and SAFe Agilist**, committed to fostering agile methodologies in project execution. Proficient in reporting tools such as **Tableau** with hands-on experience in databases and applications including **Oracle, DB2, SQL Server, and Salesforce**. Adept in utilizing tools like **Jira, Dynatrace, Splunk, GitHub, Tivoli, and ServiceNow** to enhance productivity and streamline operations.

WORK EXPERIENCE:

Tata Consultancy Services (TCS)

Assistant Consultant (AST) | 2011 - Present

- **Domain:** Healthcare
- **Technologies:** Business Intelligence, Data Integration, Data Warehousing ETL and reporting, Data replication
- **Tools/Applications:** Apigee Edge and X, Qlik Replicate(Attunity), Informatica PowerCenter, Infosphere Datastage, Tableau, SQL Developer, Salesforce, Service Now, Jira, O365, Dynatrace, Splunk, GitHub, Tivoli
- **Databases:** Oracle, DB2, SQL Server, Teradata, Postgres

RELEVANT PROJECTS:

Cardinal Health EDA APIGEE Admin

Technical Lead | March 2024-Present

- Serving as the APIGEE administrator for Google's API platform within Cardinal Health's Event-Driven Architecture team. This platform is utilized for the Edge and X systems, which are designed to build, secure, and manage APIs while facilitating the transition from Edge to APIGEE X.
- Tools Utilized: APIGEE Edge and X, GitHub, Concourse, Vault, ServiceNow, Dynatrace, Splunk, Jira.

Kaiser Permanente EAS Development

Senior ETL Developer | June 2021 - Feb 2024

- Kaiser Permanente's PHR Connect BI Integration project provides the Business with the tools needed to deliver exceptional HR Services to Physicians. It provides dashboards and other reports for KPI requirements.

Carried out the following activities:

- Requirement gathering and analysis, effort estimation
- Design, Planning & Development of end-to-end ETL applications
- ETL performance tuning
- Test plan development/ Unit testing
- SIT/UAT Testing performed
- Execute the test specification, test, and log defects/ documentation
- Production support activities
- Job Scheduling

Technology Utilized: Informatica, Salesforce, SQL Server and Oracle Database, Shell Scripting, Oracle PL/SQL, Java, Trivoli, Tableau

Kaiser Permanente Onelink FDW Development

ETL Developer | January 2012 till November 2020

Onelink FDW streamlines finance-related data from various sources, integrating it into the Onelink Financial Data Warehouse through dimensional modeling. Following this, Cognos and Tableau reports are generated to assist senior management in making crucial business decisions.

Key Responsibilities:

- Grasping the business and functional overview of the application
- Facilitating meetings with non-IT users to translate their needs into technical requirements and offering optimal solutions
- Writing code to fulfill business requirements and performing unit testing
- Promoting code to the testing environment and conducting various tests, including System Integration, User Acceptance Testing (UAT), performance testing, and regression testing
- Ensuring the quality and timeliness of deliverables, while providing clients with updates on project progress and outstanding issues
- Managing code deployment activities to the production server
- Investigating and resolving issues in Testing and Production environments

Technology Stack: Abinitio, Informatica, Datastage, Unix Shell scripting, TWS, Oracle and DB2 Database, Java

Initial Learning Program (ILP)

Trainee | September 2011 to December 2011

- Completed training in C++ and fundamentals of software engineering, culminating in a project focused on a telecommunications system designed on the UNIX platform utilizing Pro*C.

EDUCATION:

2007 - 2011 | West Bengal University of Technology, Kolkata| GPA 9.0

Bachelor of Technology in Computer Science and Engineering

2005 - 2007 | West Bengal Board of Higher Secondary Education, Kolkata

Higher Secondary, Shri Shikshayatan School

PUBLICATIONS:

Triple SV: A Bit Level Symmetric Block Cipher Having High Avalanche Effect

International Journal of Advanced Computer Science and Applications (IJACSA), Vol. 2, Issue 7, pp 61-68, July 2011. (Online-<http://thesai.org/Downloads/Volume2No7/Paper%209-Triple%20SV%20A%20Bit%20Level%20Symmetric%20Block%20Cipher%20Having%20High%20Avalanche%20Effect.pdf>)

Efficient Hardware Realization of Triple Data Encryption Standard Algorithm Using Spartan-3E FPGA

", Proceedings of International Conference on Issues and Challenges in Networking, Intelligence and Computing (ICNICT 2011), ISBN – 978-93-81126-27-1, pp 60 – 63, 2nd-3rd September, 2011

SKILLS:

- Project Management
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

SKILLS:

- English
- Hindi
- Bengali

HOBBIES:

- Travelling and exploring new places
- Researching on new topics
