PROFESSIONAL PROFILE

- Accomplished **Full Stack Developer** with 6+ years of IT experience, including 3+ years specializing in **Drupal** development.
- Expertise in designing, building and maintaining scalable front-end and back-end web applications to client needs.
- Skilled **Drupal Developer** in site-building, custom theme and module development, and optimizing Drupal sites for performance and accessibility.
- Proficient in identifying and resolving complex technical challenges, leveraging a strong problem-solving mindset to deliver efficient results.
- Collaborative team player with proven experience working in diverse environments to deliver high-quality, scalable web solutions aligned with business goals.

TECHNICAL SKILLS

Languages	: PHP (LAMP) Stack, JavaScript, C, Python
Database	: MySQL, MS SQL Server, Mongo DB
Version Control	: GIT, Subversion (SVN)
Development & Design Tools	: VisualStudio Code, PhpStorm X-Code, Docker, Adobe Photoshop CC, Miro, Figma
Frontend Technologies	: HTML 5, CSS 3, Twig, jQuery, React, Vue.js, Angular, SASS/SCSS, Tailwind CSS
Frameworks	: Symfony, Laravel, Express.js, Typescript, Bootstrap 4/5
CMS	: Drupal, Wordpress
Operating Systems	: Linux/Ubuntu, macOS, Windows
Deep Learning (ML)	: Tensorflow, PyTorch (SciKit-learn, XGBoost, LightGBM), Keras
Data Handling	: MySQL, PostgreSQL, Mongo DB, Matplotlib, Seaborn

EDUCATIONAL EXPERIENCE

Cleveland State University - Research Student Worker

Jan 2024 – May 2024

Levin College of Public Affairs and Education

Cleveland, OH 44114

- Objective:** Reduce urban traffic congestion by predicting travel times and dynamically adjusting traffic light timings using machine learning.
- Data Utilization:** Utilized historical traffic data from Milwaukee, applying algorithms like Random Forest and LightGBM for accurate TT predictions.
- Model Performance Assessment:** Assessed model performance using Mean Squared Error (MSE) and Mean Absolute Error (MAE) to ensure accuracy.
- Data Processing:** Created lag features and standardized data, achieving high accuracy with LGBM as the best model.
- Significance:** Pioneered machine learning applications for dynamic traffic light control, improving traffic management and reducing environmental impacts.

Cleveland State University - Web Design Specialist (Graduate Assistant)

Sept 2023 – May 2024

Levin College of Public Affairs and Education

Cleveland, OH 44114

My work focused on developing features, overseeing complex migrations, and setting up RESTful web services for Drupal-based websites.

Responsibilities:

- Configured content types, views, blocks, and taxonomy for complex Drupal sites.
- Developed custom Drupal modules leveraging Form API, Entity API, and Database API to meet unique user requirements.
- Website Maintenance and web page enhancement for the Levin College website, leveraging Drupal's theming layer to create responsive and accessible designs.
- Oversaw content migration from Drupal 7 to Drupal 10 during the website transition phase.
- Created responsive, accessible designs aligned with WCAG standards, enhancing user experience.
- Supported students and faculty as a Lab Monitor by troubleshooting technical issues, providing guidance on Adobe Dreamweaver, and fostering a productive learning environment.
- Collaborated with end users to gather feedback and deliver user-centric solutions, optimizing institutional websites.

Cleveland State University - Graduate Teaching Assistant
Cleveland, OH 44114

Aug 2023 – Sept 2023

Worked as a Teaching Assistant under Professor Dr. Ben Blake for the graduate course CIS 530 (Systems Programming). Actively collaborated with the professor to provide support and assistance to students enhancing their learning experience.

Responsibilities:

- Assisted the professor with homework grading and quizzes and prepared answer keys for the assignments and provide support to the students with assignments and guide on fundamentals of C and help develop problem-solving strategies.
- Created exercises to reinforce the course and offer students opportunities for practice

PROFESSIONAL EXPERIENCE (Chennai, India – 600059)

Accenture Solutions Pvt Ltd., - Country Controller Analyst

Oct 2019 – Dec 2021

- Designed mobile-friendly websites utilizing Bootstrap 4, Twig, Tailwind css, SCSS and other similar technologies as required.
- Developed custom pluggable components to enhance reusability across platforms
- Collaborated with clients to gather and analyze requirements, contributed to the development and implementation of RESTful web services, and facilitated seamless integration with existing systems.
- Organized and led training sessions on web technologies, equipping team members with practical skills in modern development workflows.
- Streamlined data management processes through meticulous documentation, reconciled complex statements, and supervised high-volume transactions to ensure accuracy and compliance.

Ingram Micro India Ltd, - Senior Business Associate

Dec 2018 – July 2019

- Designed and developed internal web tools for real-time inventory tracking and created customized reporting systems, enabling comprehensive supply chain visualization and data-driven decision-making.
- Analyzed goods movement to identify efficiency gaps and implemented strategies to optimize logistics, while monitoring supplier quality to enhance inventory integrity and reduce discrepancies.
- Managed production levels and fostered strong supplier relationships, leading cross-functional teams to achieve 100% PayPal ECI adoption and streamline supply chain processes.
- Coordinated logistics and delivery schedules, reducing production downtime by implementing proactive quality control measures and maintaining operational continuity.

Cognizant Technology Solutions - Senior Process Executive

May 2018 – Dec 2018

- Developed and maintained key website components using PHP, while implementing web-based financial reporting tools that streamlined financial data visualization and improved decision-making.
- Reconciled accounts receivable and managed invoicing processes, proactively communicating with customers to resolve payment issues and ensure timely collections.
- Supervised collections processes, enhanced training documentation to improve team efficiency, and collaborated with legal teams to address defaults and recover outstanding payments.

HCL Technologies Ltd., - Business Analyst

Feb 2016 – March 2018

- Developed and maintained internal web applications using Python and Django, enhancing order tracking systems and significantly improving user experience through streamlined workflows and intuitive interfaces.
- Ensured order accuracy, managed provisioning processes, and forecasted stock requirements to maintain optimal inventory levels, reducing stockouts and excess inventory.
- Created detailed shipping documents, generated accurate shipment reports, and updated the CRM system with customer interactions, improving communication and operational efficiency.

EDUCATION

- Master of Computer Science Engineering, Cleveland State University, USA.
- Bachelor of Electrical and Electronics Engineering, CIT, Anna University, India.
