

Sunny Martini

SENIOR SOFTWARE ENGINEER

Vineland, NJ | 917.695.5719 | franksunnymartini@gmail.com | [Linkedin](#)

Professional Summary

Accomplished Senior Java Engineer with 10+ years of experience designing, developing, and maintaining scalable backend services using Java, Kotlin, C# and microservices, alongside proficiency in front-end technologies like React. Proven expertise in cloud-based application development, particularly using AWS, CI/CD pipelines, and collaborating within teams. Demonstrated success in delivering high-quality, efficient code for high-impact projects while optimizing application performance and ensuring security. Adept at contributing within teams to meet business goals and technical requirements.

Skills & abilities

- **Backend Technologies:** Java, Kotlin, Spring Boot, C#, .NET, .NET Core, Microservices, REST APIs
- **Frontend Technologies:** React, Angular, JavaScript, TypeScript, HTML/CSS
- **Cloud Platforms:** AWS (EC2, Lambda, S3, RDS, ECS Fargate, API Gateway), GCP, Azure
- **Databases:** DynamoDB, Oracle, MongoDB, MySQL, Redis, MS SQL Server
- **DevOps:** Docker, Kubernetes, Jenkins, CI/CD
- **Message Queues:** Kafka, RabbitMQ
- **Tools:** Git, Jira, Confluence
- **Agile Methodologies:** Scrum, Kanban

Experience

Senior Software Engineer | R3 Technology Inc. (R3TEK) | Seattle, WA **Aug 2020 – Present**

- Collaborated with cross-functional teams to develop and deploy scalable, cloud-based web applications using AWS technologies, including EC2, S3, Lambda, and DynamoDB.
- Worked alongside other developers to build full-stack solutions, developing REST APIs and microservices on the backend, and implementing front-end interfaces using React.
- Troubleshoot and resolved technical issues within the team, optimizing AWS infrastructure and application performance.
- Contributed to the implementation of best practices for security, performance optimization, and cost management across AWS cloud services.
- Key Technologies: Java, Kotlin, Spring Boot, C#, .NET, AWS, Azure, Angular, React.

Software Developer | Citigroup | New York, NY

Aug 2017 – Jul 2020

- Worked as part of a team developing backend services and integrating complex financial systems.
- Participated in the full software development lifecycle, collaborating with team members on designing, coding, testing, and debugging Java-based applications.
- Coordinated with product owners and other developers to create front-end interfaces using React and integrate them with backend services.

- Assisted in performance tuning and system improvements, troubleshooting issues alongside the team to ensure operational efficiency.
- Key Technologies: Java, Kotlin, Spring, Oracle, SQL, Angular, React.

Junior Software Developer | Walmart Global Tech | Bentonville, AR

Jun 2014 – Jul 2017

- Worked within a team to develop and maintain backend services for Walmart's eCommerce platform, ensuring scalability and security for high-traffic applications.
- Contributed to full-stack development, building front-end customer interfaces and backend APIs under the guidance of senior engineers.
- Assisted in the migration of legacy systems to cloud infrastructure using AWS technologies, including EC2 and S3.
- Collaborated with various internal teams to integrate new features into Walmart's large-scale systems.
- Key Technologies: Java, Spring, C#, .NET, AWS (EC2, S3, RDS), Docker, React, Angular.

Education

University of California, Berkeley, BS Computer Science

2014

Major: Computer Science | Minor: Mathematics
