SUMMARY

Motivated and detail-oriented Mobile Application Developer with a strong foundation in Android native development using Java and Kotlin. Experienced in creating user-friendly, efficient, and scalable applications across platforms. Eager to apply technical and analytical skills to contribute to innovative mobile app development and user-focused design. Seeking an entry-level position in mobile application development or a related field.

Mobile Application Developer with over 2+ years of experience in developing cross-platform applications. Strong communicator with a proven ability to work collaboratively in team environments. Excellent problemsolving skills and a meticulous attention to detail. Adaptable and quick to learn new technologies, with a focus on delivering high-quality solutions that meet client needs.

EMPLOYMENT HISTORY

Jul 2023 – Dec 2024 ACETCH INDIA PVT LTD

Pallet Management System with RADIO FREQUENCY IDENTIFICATION(KOTLIN):

- Developed and implemented a comprehensive pallet management system using RFID technology for Caterpillar and Acedigital to streamline inventory tracking and management.
- Designed and deployed RFID reading and writing modules to ensure accurate pallet data collection and realtime updates.

Parking Application POS TERMINAL for GREATER CHENNAI CORPORATION (KOTLIN):

- Developed and maintained a POS terminal for efficient parking fee collection.
- Integrated secure payment gateways to facilitate cashless transactions.
- Implemented real-time data synchronization to update parking availability and transactions.
- Developed and deployed the application for global usage, ensuring compatibility and seamless performance across a wide range of devices worldwide.

Garden Waste System with GPS TRACKING (GREATERCHENNAI CORPORATION) (KOTLIN):

- Developed an garden waste management for the Greater Chennai Corporation.
- Integrated GPS functionality to track waste collection points and optimize routes.
- Implemented image capture and upload functionalities to document waste disposal.

Single page Power BI API for GREATER CHENNAI CORPORATION (ANGULAR):

- I developed a Single Page Application using Angular and integrated Power BI for advanced data visualization. The integration involved embedding Power BI reports and dashboards via Power BI's JavaScript API, implementing authentication using Azure AD for secure access, and customizing visualizations to meet business needs. Additionally, I optimized performance for seamless report rendering and ensured responsiveness for various devices.

Jul 2022 – Jul 2023

ANJANA INFOTECH

ABLED (KOTLIN) :

- Developed a medical chat application with video calling, audio calling, live chat, and messaging features. Ensured secure communication and real-time connectivity for patients and healthcare providers. Optimized for reliable performance across multiple devices.

GMTH Medical Tourism:

- Developed a Medical Tourism application using the MEAN stack (MongoDB, Express.js, Angular, Node.js)
- Implemented features for patient registration, healthcare provider listings, appointment scheduling, and payment processing.
- Integrated third-party APIs for real-time exchange rates and language translation services to enhance user experience.
- Ensured scalability and security by implementing RESTful APIs and JWT-based authentication.
- Collaborated with a multidisciplinary team to gather requirements and deliver a user-friendly interface meeting client specifications.

SKILLS : Java , Kotlin , Javascript , Angular , Express js , Node js , Android Studio , Ionic , git

EDUCATION :

- Madurai Kamaraj university(Bachelor Commerce with Computer Application)
 - Currently pursuing Master of Computer Application(Software development) from ALAGAPPA UNIVERSITY
-

LANGUAGE : Tamil , English

RELEVANT COURSEWORK :

- Android Development
 - IOS Development
 - Hybrid Mobile Application Development
 - MEAN Stack (MongoDB, Express.js, Angular, Node.js)
-

Accomplishments : Completed MEAN STACK basic course with 'A' Grade
