Experience

Federal Express Corporation **Package Handler (Norcross, Georgia)** 3/6/2023-1/12/2025

Unload and load trailers and vans, scan, sort, relabel, and repair packages, break jams and face boxes on the conveyor to ensure easy flow of products. Logistics and shipping position.

Amazon **Sortation Center Warehouse Associate (East Point, Georgia)** 3/1/2023-4/19/2023

Scan and sort packages. Occasionally, used pallet jack to move pallets of packages around. Also wrapped pallets, unloaded trailers, and sorted small packages. ATL6 location. Logistics and shipping position.

UPS **ODC Clerk (Doraville, Georgia)** 10/31/2022—1/13/2023

Origin Data Capture (ODC) – Process international packages. Scan and upload invoices for custom inspection. Logistics and shipping position.

Cognixia **Trainee (Atlanta, Georgia)** 6/6/2022—11/14/2022

In-depth training for Java, MySQL, NoSQL, Maven, servlets, Git, DevOps, AWS, Spring, Kafka, Product Engineering, HTML, CSS, JavaScript, React (bootcamp format).

Amazon **Sortation Center Warehouse Associate (Union City, Georgia)** 8/23/2022—10/15/2022

Scan and sort packages. Occasionally, used pallet jack to move pallets of packages around. MGE8 Location. Logistics and shipping position.

Pyramid Consulting	Trainee (Alpharetta, Georgia)	10/11/2021—3/25/2022
In-depth training on Oracle Retail (formerly Retek Retail), including RMS (Retail Merchandising System), OCI (Oracle Cloud Infrastructure), OIC (Oracle Integration Cloud), RIB (Retail Integration Bus), Unix, Oracle SQL, PL/SQL, and a little bit of Java SE (bootcamp format).		
FedEx Ground	Package Handler (Ellenwood, Georgia)	6/26/2020—9/26/2021
Help to put packages in trailer trucks. Occasionally scan packages as well before putting them in the truck. Also, will sometimes help with unloading, to remove packages from trucks. Logistics and shipping position.		
Mikie's Big Burger	Manager/Supervisor (McDonough, Georgia)	2/4/2020—9/25/2020
Managed everyday operation at the food restaurant, which includes filing company taxes, monitoring orders, cash register, and payroll in timely manner.		
Revature	Trainee (Tampa, Florida)	1/6/2020—1/31/2020
Spent 4 weeks in extensive training to learn technologies and software development processes, including Agile and the software development lifecycle. Created two projects while onsite as part of training (bootcamp format).		
RAM-Tech PC Solutions	Hardware Technician (Stockbridge, Georgia)	7/28/2016 — 1/3/2020
Repair and configure computer hardware and provide customer support		
Walmart	Electronics Sales Associate (Ellenwood, Georgia)	5/27/2016—7/28/2016
Computer hardware and software sales and offered support to customers on the floor. Used teamwork to carry televisions to customers' vehicle. Also sold other electronics, including tablets, phones, game consoles and games, and televisions and soundbars.		
RAM-Tech PC Solutions	Intern (Stockbridge, Georgia)	8/1/2014 — 5/27/2016
Repair and configure computer hardware and provide customer support		

Education

May 8, 2019	Georgia State University, Bachelor of Science in Computer Science

Recent Projects

- **Personal website:** <https://tojumikie.github.io/>

Website showcasing some web development skill, featuring some major projects and companies that I have worked for.

- **GitHub:** <https://github.com/tojumikie>

Various programming projects are hosted on my GitHub.

- **Cognixia Capstone Project** <https://tojumikie.github.io/projects/cognixia-capstone.html>

Group project with 5 people. Full-stack project where customers can buy and sell used cars. Uses Java, Spring Boot, SQL, HTML, CSS, JS, React. Hosted on AWS Elastic Beanstalk. The goal of this project was to do a full project at that encompassed all that we learned in the training (bootcamp).

- **Kubernetes Cluster on Oracle Cloud**

Created a Kubernetes Cluster using OKE (Oracle Container Engine) and created a container registry, and downloaded and mirrored a repository with basic html code, and displayed the code in a Linux command line in the Cloud Shell. I did this project to expand my knowledge on Oracle Cloud

- **TV Show Progress Tracker** <https://github.com/gortiz2021/Progress-Tracker>

Group project with 4 people that was completed with Cognixia in July 2022. Maven build, Java Console Application, also using MySQL database. User can create account, log in, and see shows in the database that have not been watched, in progress, and completed. Administrator account can also log in and add, edit, or remove TV shows. The goal of this project was to build a project that encompassed the technologies that were learned in the training.
