SUMMARY

A detail-oriented Data Analyst with expertise in Python, SQL, and statistical analysis. Proficient in data collection, data cleaning, and data visualization using tools such as Pandas, NumPy, and Tableau. Experienced in analyzing large, complex datasets to uncover actionable insights and support data-driven decision-making. Adept at creating predictive models and performing statistical tests to solve business challenges. Seeking to leverage my analytical skills to deliver measurable outcomes and drive business success

TECHNICAL SKILLS

- Programming Languages: Python, C++
- Data Analysis Tools: Excel, SQL, Pandas, NumPy, Matplotlib , Seaborn
- Machine Learning: Supervised Learning (Linear Regression, Logistic Regression, Decision Trees, Random Forests, Gradient Boosting), Unsupervised Learning (K-Means, PCA, Hierarchical Clustering), Reinforcement Learning
- Deep Learning: Neural Networks, Convolutional Neural Networks (CNNs), Recurrent Neural Networks (RNNs), Long Short-Term Memory (LSTM), TensorFlow, PyTorch, Keras
- Natural Language Processing (NLP): Tokenization, Lemmatization, Sentiment Analysis, Topic Modeling, Named Entity Recognition (NER), Language Modeling, Text Classification using SpaCy, NLTK, and Hugging Face
- Image Processing: OpenCV, Scikit-Image, Image Classification, Object Detection, Image Segmentation
- Statistics: Descriptive Statistics, Inferential Statistics, Hypothesis Testing, Regression Analysis (Linear, Logistic)
- Data Visualization: Tableau, Power BI, Matplotlib, Seaborn
- Database Management: MySQL, PostgreSQL

EDUCATION

- 2021-2025
MVSIT, Affiliated to GGSIPU, (INDIA) (B. Tech) in Computer Science and Engineering
- 2020-2021
The Mann school(INDIA)[CBSE Board of Education]
- 2018-2019
Mother Khazani Convent School(INDIA)[CBSE Board of Education]

CERTIFICATES

- Mastering Generative AI and ChatGPT
 - GeeksforGeeks(January 06, 2025)
- MongoDB Developer's Toolkit course
 - GeeksforGeeks (January 02, 2025)
- Data Science Classroom Program –
 - GeeksforGeeks (November 18, 2024)
- Project Management Fundamentals –
 - IBM SkillsBuild (July 10, 2024)
- Explore Emerging Tech –
 - IBM SkillsBuild (July 12, 2024)
- Data Fundamentals –
 - IBM SkillsBuild (July 13, 2024)

PROJECTS & INTERNSHIPS

DATA SCIENCE INTERN AT GEEKS FOR GEEKS

SEPTEMBER'24-DECEMBER'24

1. Sugarcane Production Analysis

- Conducted an in-depth analysis of sugarcane production data to identify trends and patterns.
- Utilized Python, Pandas, and Seaborn for data cleaning, processing, and visualization.
- Provided actionable insights to optimize production strategies.

2. Black Friday Sales Data Analysis

- Analyzed consumer purchasing behavior using sales data from Black Friday.
- Identified key factors influencing customer spending.

3. Heart Disease Dataset Visualization

- Visualized relationships between key features of a heart disease dataset
- Created comprehensive charts using Matplotlib and Seaborn to enhance data storytelling.
- Contributed to identifying high-risk indicators for heart disease.

4. GDP Analysis

- Performed time series analysis on GDP data to track economic growth trends.
- Used Python and Excel for data cleaning and visualization.
- Delivered actionable insights for understanding GDP fluctuations.

5. Handwritten Digit Recognizer

- Built a classification model using Convolutional Neural Networks (CNNs) to recognize handwritten digits.
- Trained the model on the MNIST dataset using TensorFlow and Keras, achieving an accuracy of over 95%.

6. Human Activity Recognition using Smartphones

- Classified human activities using motion sensor data from smartphones.
- Built models using LSTM and SVM, achieving high accuracy.
- Preprocessed data using Pandas and visualized results with Seaborn.

7. IMDb Data Insights and Visualization

- Conducted Exploratory Data Analysis on IMDb dataset using Python and Seaborn.
- Identified key insights through univariate, bivariate, and multivariate analysis.
- Handled NaN values and enhanced data clarity with detailed visualizations.
