EDUCATION

Bachelor of Science in Computer Science

The University of Texas at Dallas, Richardson, Texas

May 2024

GPA 3.9

RELEVANT COURSEWORK

- Database Systems - Covers the structural implementation of database management systems.
- Digital Logic and Computer Design - Covers the mathematical logic behind computer systems.
- Advanced Algorithm Design & Analysis - Covers the design and analysis of various computer algorithms.
- Computer Architecture - Covers the base level functionality of computer systems

SKILLS

Programming: Java, C++, C, HTML, Python, React, Node.js

Data Analysis: SQL, MySQL, Database Management, MongoDB, MERN Stack

Additional: Debugging, Problem Solving, Teamwork, Project Management, Communication, Github

ACADEMIC PROJECTS

Chatbot Project

Spring 2023

Designed a chatbot that can hold a conversation about a specific topic, and is able to retain user information throughout the discussion. The chatbot uses various NLP techniques to parse through the user's response and give an adequate response of its own in turn.

Skill Sets: Python, Pycharm, Wordnet, NLTK

Web Development Senior Project

Spring 2024

Worked with a group of peers to develop a portal for non-profit organizations to reach out to companies and donors. This project involved creating various diagrams to plan for development, working on front end web design and UI, and back end API and databases.

Skill Sets: MERN Stack, MongoDB, Node.js, React

PROFESSIONAL EXPERIENCE

Squarespace Engineer - Freelance

Spring 2025 - Present

- Established website to be consistent aesthetically while retaining clarity.
- Maintained website to client's request, carrying out bug fixes and updates as necessary.
- Configured and adapted sections of the site to better fit with the intended vision.

AWARDS & HONORS
