- I have led the management and expansion of an \$18 billion portfolio, overseeing the implementation of Sales Cloud, Service Cloud, Marketing Cloud, Experience Cloud, and Einstein Bot (MIAW implementation). Additionally, I manage 10,000 users while ensuring security compliance.
- My responsibilities include conducting audit reports, monitoring system performance, performing health check assessments, and delivering end-to-end environment reports on a quarterly basis.
- I have hands-on experience with tools such as OB Secure, AWS, Copado, GIT, and deployment processes.
- Expert in Sales, Service, Experience, Data, and Health Cloud, Einstein Bot (MIAW), Scheduler, and Agentforce
- Ensuring security compliance, audits, and system performance
- Delivered 30+ Salesforce implementations with full-cycle design, architecture, and deployment
- One-woman show building Scheduler, Einstein web/portal bots, and integrations with Vonage and Yellow.ai
- Adept at turning complex business needs into scalable, functional Salesforce solutions
