SUMMARY

Senior application consultant with 8+ years experience designing enterprise solutions, delivering deployment workflows, and engineering integrated platforms. Improved system stability 34% across 18 sites and accelerated endpoint deployment cycles 27% through optimized configuration pipelines.

TECHNICAL SKILLS:

- **Endpoint & Deployment Tools:** Tanium, MECM
 - **Scripting & Development:** PowerShell, C#, Angular
 - **Databases & Integration:** SQL Server, Microsoft Access, Azure Integration Services
 - **Web & Application Development:** Web applications, API integrations
 - **Analytics & Reporting:** Power BI, SQL
-

PROFESSIONAL EXPERIENCE

QAD

Dallas, Texas

Senior Application Consultant

March 2022 – Present

- Engineered Tanium policies for 4,200 endpoints, strengthening configuration compliance across 18 operational locations.
- PowerShell automation powering 120 weekly tasks and reducing manual remediation hours 38%.
- Created MECM deployment sequences supporting 2,800 devices while shortening patch rollout windows 22%.
- Developed Built SQL Server routines processing 1.7M records monthly, tightening transactional system accuracy.
- Created C# components integrating three ERP services, improving data synchronization throughput 26%.
- Produced Angular interfaces for two internal tools supporting analysis workflows for 140 users.
- Structured Access-based utilities enabling 15 audits quarterly across distributed supply chain groups.

MONDELEZ CANADA

Toronto, Ontario

Application Consultant

July 2020 – March 2022

- Designed SQL Server data flows optimizing forecasting models processing 520,000 planning records weekly.
- Implemented automation scripts powering 70 recurring activities and decreasing cycle delays 19%.
- Organised web application features supporting 85 planners and accelerating review frequency across sites.
- Constructed C# scheduling modules coordinating updates for 14 enterprise environments.

WEST FRASER LUMBER

Toronto, Ontario

Application Consultant

January 2018 – July 2020

- Integrated endpoint telemetry from 600 assets, enhancing system diagnostics and reducing outage hours 17%.
- Implemented SQL-driven reporting for 22 departments, improving operational review cadence.
- Modernised deployment documentation for 12 ERP releases, tightening execution consistency across mills.

LACTALIS CANADA

Toronto, Ontario

Application Consultant

September 2015 – January 2018

- Developed C# utilities enabling 45 planners to validate ATP and CTP logic across monthly cycles.
- Streamlined PowerShell routines migrating 240,000 master records across legacy environments.
- Structured SQL Server datasets supporting 30 logistics models, raising scenario accuracy across operations.

POLYWEST INC.

Winnipeg, Canada

Application Consultant

August 2014 – September 2015

- Built SQL migration pipelines consolidating 310,000 records across SAP and D365 systems.
 - Authored deployment guides supporting 18 implementation waves across manufacturing units.
 - Generated Access utilities accelerating 25 daily validation tasks across supply chain teams.
-

EDUCATION

UNIVERSITY OF MANITOBA

Winnipeg, Canada

Bachelor of Arts in Economics & Business Administration

September 2011 – May 2014

CERTIFICATIONS

SCMP Designation (Supply Chain Management Professional), Microsoft Certified: Dynamics 365 F&O Solution Architect Expert, Microsoft Certified: Dynamics 365 SCM Functional Consultant, AWS Certified Solutions Architect Professional, Lean Six Sigma Yellow Belt, Microsoft Azure Fundamentals Certification
