PROFESSIONAL SUMMARY

Results-oriented Systems Administrator with over 10 years of experience managing and optimizing complex IT infrastructures in both on-premises and remote environments. Proven ability to ensure system stability, implement backup and recovery solutions, and provide technical support. Expertise in Windows Server administration, VMware vSphere, Google Workspace, and endpoint protection.

CORE COMPETENCIES

- Windows Server (AD, GPO, DNS, DHCP, WSUS)
- VMware vSphere (ESXi, vCenter, VM Management)
- Google Workspace Administration (User Management, Security, Applications)
- Microsoft 365 Administration
- Backup and Recovery (Veeam, Wasabi, GYB)
- Endpoint Protection (SentinelOne, Fortinet, Trellix, Carbon Black, ESET, Sophos)
- Scripting & Automation (PowerShell, Batch Scripting)
- Troubleshooting & Problem Solving
- Network Fundamentals (TCP/IP, VPN)

PROFESSIONAL EXPERIENCE

Atlas Travel and Technology – Remote Systems Administrator | Nov 2022 – Oct 2024

- Managed and supported the migration from on-premises Microsoft Exchange to Google Workspace, ensuring secure and seamless transition for a remote workforce.
- Administered corporate backup systems using Veeam v12 with offsite replication to Wasabi Cloud, optimizing backup and recovery processes.
- Implemented and maintained SentinelOne for endpoint security, enhancing threat detection.
- Integrated Okta with Active Directory for streamlined user provisioning and enforced MFA/SSO policies, improving identity security.
- Configured and maintained secure VPN solutions (FortiClient, L2TP) for remote access, ensuring encrypted communications.
- Conducted quarterly audits of AD user accounts and privileged groups, ensuring 100% compliance with PCI DSS standards.
- Troubleshot and resolved VMware vSphere authentication issues.
- Configured dedicated Megaport connectivity to Wasabi Cloud—gathered VLAN, BGP and peer-IP details; configured switch port modes, VLAN tagging, firewall access/NAT policies and BGP peering; tested end-to-end connectivity and data transfers; and documented and validated the network design against security standards.

Town of Meredith – Meredith, NH Network Administrator | 2006 – 2022

- Managed Active Directory for municipal departments, including user provisioning, GPO enforcement, and FSMO role management.
- Supported Exchange server migrations, focusing on email security and data protection.
- Maintained secure VPN connections and Cisco VoIP systems, enabling protected remote communications.

- Ensured 99.9% uptime for critical public safety operations by managing redundant Cisco-based networks.

Windham Professionals, Inc. – Salem, NH Network Administrator | 2005 – 2006

- Administered security for a 350+ user network, managing AD accounts, group policies, and access controls.
- Deployed and monitored Symantec Corporate antivirus, ensuring regular updates and vulnerability remediation.

EDUCATION

Southern New Hampshire University – Manchester, NH

B.S. in Computer Science | GPA: 3.6 | Member, Delta Mu Delta Honor Society

Hesser College – Concord, NH

A.S. in Computer Support Specialist | GPA: 3.7 | Dean's List

CERTIFICATIONS

Previously Held Certifications

- CJIS Security Certification
- Microsoft Certified Systems Engineer (MCSE)
- Microsoft Certified Systems Administrator (MCSA)

Technical Training

- Cisco ISD1 Certification Training
