Education

Ball State University, Muncie IN - Dec 2005

Bachelor of Fine Arts Telecommunications - Audio/Video Production concentration

Ivy Tech Community College - Jun 2017

Associates of Applied Science in Informatics

AWS Certifications

AWS Cloud Practitioner 2020

Work Experience

Ontario Systems – Muncie, IN – May 2014 – January 2025

Senior Systems Administrator - NightOps

I lead a team of 10 individuals at night that focused on optimizing AWS infrastructure and managing both Windows and Linux systems to ensure high availability, security, and performance. I managed EC2 instances, S3 storage, and IAM roles, enforcing best practices for system access and data security. Additionally, I monitored and troubleshooted EBS and EFS performance, ensuring minimal downtime and optimal system efficiency. I also implemented patching solutions, automated tasks with AWS Systems Manager, and utilized Terraform for efficient resource provisioning. With experience in Bitbucket and Jira, I streamlined code integration and project management. Throughout, I created clear documentation in Confluence and worked to maintain a secure, scalable, and reliable infrastructure.
