SAP ECC S/4 Hana Master Data Analyst

10 years of Bilingual Data Maintenance in SAP CRM, SAP SD, and Ariba Cloud. Support minor enhancements with Unit Testing and Master Data from legacy to the new ERP system.

Quantitative Achievements

Nouryon Chemical Bronze Projects

Inactive Customer: Collaborated with IT team members to eliminate manual Inactivate customers (using 24 months) Automated running report established within SAP ECC.

The Sales Personnel Clean-up Initiative Project Worked with Global counterparts to execute clean-up on Sales Personnel linked to customer accounts to correctly establish clean reports for Sales Managers.

Tax Audit Project Work with EU and US Tax Managers Clean up Customers, Vendors 1099, VAT, etc.

Schlumberger Co.S4 Hana Ariba Implementation Roll out North America

Promoted Ariba ticket resolution under SLA service improved from 2.48 days in 2018 to 1.96 days in 2019, resulting in a 21% efficiency improvement after collaborative efforts and refresher training. The focal point in NAM for the R2.4 and R2.5 population provided on-site help and walk-through for any cutover hyper-care queries.

Worked Service Now requests ITT SAP SCM to help them address punchout catalog, CIF issues, and Ariba supplier troubleshooting technical issues impacting the business. Tickets requests from Service now (separately from group boxes or projects).

Turnaround time from 2.5 days to 1.19 days with the shortage of human resources and application challenges. Improved MDM requests and changed program with limited application tools and human resources delivery from 38% to 60% by delivering on time to achieve the KPI's goals promised to the business.

EU SAP ECC Optimus Conversion Cameron International

NAM SAP ECC deployment was successfully executed at the end of 2015. 2016, participated in Optimus SAP ECC dress rehearsals which involved the creation, review, and validation of master data for FI, SD, CRM, **Vendors, and SCM for EU Go live rehearsals**. I participated in the after-go-live hyper-care for EU Data conversion. SAP ECC Optimus. Participated in rolling out SharePoint Agile webform for Master Data Requests and continued improvements reducing rejection requests by 95%.
