

DHARAM SINGH VISLAVATH

Texas, United States | +1 (940) 977-0586 | dharamsv2000@gmail.com

PROFESSIONAL SUMMARY

ServiceNow Developer with **4.5 years of experience** across **Healthcare and Telecommunications domains**, delivering enterprise ServiceNow solutions spanning **ITSM, ITOM, ITAM, HAM, CMDB, Discovery, Service Catalog, Virtual Agent, App Engine, and AI-enabled workflow automation**. Certified **ServiceNow CSA, CAD, CIS-ITSM** professional with expertise in **Flow Designer, Integration Hub, Script Includes, Business Rules, GlideRecord, REST/SOAP APIs, Service Portal, Employee Center, scoped application development, CSDM, MID Server, platform upgrades, and Agile SDLC**, supporting enterprise environments serving **35,000+ users**.

Graduated with a master's in computer science from the University of North Texas.

WORK EXPERIENCE

UPMC – ServiceNow Administrator

March 2026- Present

- Designed and developed **ServiceNow ITSM, ITOM, ITAM, HAM, CMDB, Discovery, and App Engine** solutions supporting **35,000+ healthcare users**, leveraging Flow Designer, Script Includes, GlideRecord, Integration Hub, and scoped applications to automate enterprise workflows.
- Improved **CMDB data accuracy by 45%** by implementing Discovery, Service Mapping, CSDM standards, MID Server optimization, and CI reconciliation, providing accurate service visibility and infrastructure governance.
- Increased **workflow automation by 40%** through AI-enabled Flow Designer solutions, Integration Hub spokes, Scripted REST APIs, and Virtual Agent capabilities, significantly reducing manual effort and service fulfillment time.
- Developed Service Catalog items, Employee Center experiences, REST/SOAP integrations, custom scoped applications, and HAM lifecycle automation while managing update sets, instance cloning, platform upgrades, and Application Repository deployments.
- Collaborated with architects, infrastructure teams, vendors, and business stakeholders to conduct solution design workshops, deliver Agile releases, mentor developers, and optimize platform performance following ITIL best practices.

CVS Health- ServiceNow Developer

June 2025-March 2025

- Delivered enterprise **ServiceNow ITSM, ITOM, ITAM, HAM and CMDB** solutions supporting **30,000+ healthcare users**, designing scalable workflows, custom applications, and enterprise integrations aligned with business objectives.
- Improved **service delivery efficiency by 42%** through Flow Designer automation, Integration Hub spokes, Script Includes, Business Rules, and AI-enabled workflows using Now Assist, reducing manual processing and improving customer experience.
- Increased **asset lifecycle accuracy by 38%** by implementing Hardware Asset Management (HAM), procurement integrations, lifecycle tracking, reconciliation, and CMDB governance, improving operational visibility and compliance.
- Developed Service Portal, Employee Center, Configurable Workspace, Virtual Agent topics, REST/SOAP integrations, Scripted REST APIs, and App Engine applications while managing platform upgrades, update sets, and instance cloning.
- Partnered with enterprise architects, product owners, and cross-functional teams to conduct solution workshops, translate business requirements into scalable ServiceNow architectures, and deliver high-quality Agile solutions.

Tech Mahindra Ltd. -Software Engineer -ServiceNow

Nov 2021 – July 2023

- Developed and enhanced **ServiceNow ITSM, ITOM, CMDB, Discovery and Service Catalog** applications supporting **20,000+ telecom users**, implementing scalable automation and enterprise workflow solutions.
- Improved **field service productivity by 37%** by configuring FSM dispatching, scheduling, mobile workforce automation, Flow Designer workflows, and Integration Hub integrations, reducing service delivery delays.
- Increased **platform performance by 35%** through Business Rules optimization, GlideRecord scripting, CMDB enhancements, Discovery configuration, MID Server administration, and CSDM implementation, improving platform scalability and reliability.
- Built custom scoped applications, Service Portal solutions, Virtual Agent conversations, Employee Center experiences, REST/SOAP integrations, and Scripted REST APIs while supporting platform upgrades, update sets, and Application Repository deployments.
- Worked closely with solution architects, developers, vendors, and business stakeholders to deliver Agile ServiceNow implementations, optimize platform governance, and implement AI-driven service automation aligned with ITIL best practices.

Tata Consultancy Services. Associate Software Engineer

Jun 2020- Nov 2021

- Configured and supported enterprise IT service management (ITSM) processes for a telecom client supporting over 18,000 users by administering Incident, Change, Problem, and Request Management modules within the ServiceNow platform.

- Developed and customized Service Catalog items, approval workflows, Business Rules, and Client Scripts using JavaScript and Glide API, reducing manual ticket handling efforts by 38% and improving service request processing efficiency across telecom support operations.
- Administered CMDB management activities including CI relationship mapping, asset tracking, and data reconciliation processes to improve infrastructure visibility and increase CMDB data accuracy by 34% across network and application environments.
- Customized ServiceNow forms, UI Policies, UI Actions, and self-service portal pages using HTML, CSS, and JavaScript to enhance user experience and streamline IT support processes for internal telecom business users.
- Collaborated with network operations, infrastructure, and application teams to configure and support IT service processes aligned with ITIL best practices, reducing incident resolution time by 30% through workflow automation and process optimization initiatives.

SKILLS AND INTRESTS

- **ServiceNow Modules:** ITSM, ITOM, ITAM, HAM, CMDB, Discovery, Service Mapping, Service Catalog, Virtual Agent, Employee Center, Service Portal, App Engine
- **Development:** JavaScript, Glide API, GlideRecord, Script Includes, Business Rules, Client Scripts, UI Policies, Flow Designer, Integration Hub, Scripted REST APIs, REST/SOAP APIs, Import Sets, Transform Maps
- **Platform Administration:** MID Server, CSDM, CMDB Health, Update Sets, Application Repository, Instance Cloning, Platform Upgrades, Patch Management, Performance Optimization
- **Methodologies:** Agile, Scrum, SDLC, ITIL v4, AI/Now Assist, DevOps
- **Certifications:** ServiceNow CSA, CAD, CIS-ITSM

EDUCATION

University Of North Texas, Texas, United States

Aug 2023-May 2025

Master of Science in Computer Sciences.

CGPA:3.6

- Coursework: Fundamentals of Database, Software Engineering, Computer Algorithm, Big Data, and Computer Networks.

Osmania University, Hyderabad, India

Aug 2017-May 2021

Bachelor of Science Electronics and Communication Engineer.

CGPA:3.57

- Coursework: Database Systems, Software Engineering, Data Structures and Algorithms and Computer Networks.
