University of the Cumberland

MS in Information Technology
2021- 2023

University of South Florida

Masters in Business Administration
2018 - 2020

Anna University

B.Tech in Information Technology
2012 - 2016

PROFESSIONAL SKILLS

- Agile Methodology
- Change Management
- Data Visualization
- Software Development Life Cycle
- Stakeholder Management
- Technical Requirement Documentation

TECHNICAL SKILLS

JIRA | Tableau | Azure DevOps |
AWS | MySQL | Axure RP9 | Visio |
MS Excel | MS Projects | R

CERTIFICATIONS

- Essentials in Generative AI
- GenAI for Competitive Business
- Certified Scrum Product Owner
- Tableau for Story Telling
- Project Management: Healthcare
- MySQL for Business & Data Analytics

PROJECTS

- Developed a AI chatbot using IBM Watson for a billing platform that enables clients to easily pay various bills, through automated prompts and enhancing the user experience
- Designed a Tableau dashboard to visualize mass shootings in the US from 1966- 2017, to create a story around the correlation between mental health & race of the shooter

PROFESSIONAL EXPERIENCE

Product Owner

Rise Interactive | February 2022 - May 2024

- Completed multiple social platform data integrations into AWS, which was used by over 40 clients in the first year for their marketing campaigns
- Drove cross-functional teams to optimize our SaaS platform, resulting in a 20% increase in customer satisfaction scores.
- Managed and prioritized product backlogs and coordinated with stakeholders to meet delivery timelines, achieving 98% on-time release rate.
- Analyzed market competitiveness and integrated AI features to forecast social campaigns spending using trained consumer trend analysis data
- Spearheaded the development of a AI driven knowledge base through prompt engineering using a chat assistant
- Oversaw a team of 15 engineers, providing mentorship and strategic directions while creating user stories in JIRA.
- Identified and resolved workflow inefficiencies by automating them, which enhanced productivity by 15% and reduced turn around time

Business Solutions Analyst

Chicago Housing Authority | January 2021 - December 2021

- Collaborated with stakeholders to prepare the Requirements document with detailed scope, budget, constraints, timeframe & user stories in Azure DevOps
- Orchestrated a successful redesign of the user interface, improving user engagement by 20%.
- Created interactive mockups in Axure for A/B testing strategies to have the best User Experience (UX)
- Facilitated product planning workshops with clients to understand their needs, increasing ROI by 10%

Research Associate

University of South Florida | August 2020 - January 2021

- Analyzed the data gathered for the research project by manipulating them using SQL to find patterns that supported the hypothesis
- Created Tableau dashboard to present the insights for various scenarios to describe the effects of remote learning during the COVID pandemic

Business Analyst

CGI | June 2016 - August 2018

- Contributed to the launch of a new platform that attracted 2300 active users within the first three months.
- Conducted detailed market analysis to determine product viability, which influenced a positive pivot strategy.
- Collaborated with engineering teams to refine product specifications, documentation and help trouble shoot problems
- Developed various KPI metrics to measure the performance and optimize the process
