PROFESSIONAL SUMMARY

Skilled QA Tester and Software Development Engineer in Test (SDET) with extensive experience in manual and automated testing across diverse platforms. Proven expertise in test automation frameworks, Selenium WebDriver, Tosca Tricentis, database validation, and CI/CD pipeline integration. Strong ability to collaborate in Agile environments to ensure high-quality software delivery.

EXPERIENCE

QA Testing Analyst

*FDM Group/TD Bank
01/2022 - present*

- Developed and executed automation test cases using **Selenium WebDriver** and **Tosca Tricentis**, enhancing testing efficiency and accuracy.
 - Conducted **manual and automated testing** on mainframe and web-based applications, identifying and logging critical defects.
 - Designed and maintained robust test scripts in **Java** for cross-browser compatibility and regression testing.
 - Collaborated with cross-functional Agile teams using **JIRA** and **JTMF** for defect tracking and sprint planning.
 - Integrated automation test scripts into **CI/CD pipelines** with **Maven** for continuous testing and faster feedback loops.
 - Validated data integrity using **SQL queries** on **Oracle** and **MySQL databases**.
 - Configured and maintained diverse test environments for consistent and accurate testing results.
-

QA Software Engineer

*BoraTech Bootcamp
10/2019 – 04/2020*

- Analyzed and tested web-based applications, creating automation frameworks using **Selenium WebDriver**.
 - Automated web application testing using **TestNG**, **JUnit**, and **Cucumber**, ensuring functionality across multiple browsers.
 - Gained hands-on experience in the **SDLC phases** within an **Agile Scrum** environment.
 - Managed test dependencies and automated builds with **Maven**, streamlining build processes for CI/CD pipelines.
 - Conducted database testing using **SQL** to validate application data integrity.
 - Utilized **JIRA** for defect tracking, ensuring timely resolution of issues.
-

Contracts Specialist

*Chevron - LLP Isker
02/2015 – 04/2018*

- Ensured efficient execution of contracts, focusing on financial compliance and accuracy.
- Managed expense administration, payment processing, and correspondence tracking.
- Provided post-award contract management support to stakeholders and ensured accurate record-keeping.
- Monitored the Payment Certificate process, collaborating with accounting teams to ensure smooth workflows.
- Actively participated in contractor meetings, fostering effective communication and issue resolution.
- Conducted detailed cost analyses to identify potential budget overruns and proposed mitigation strategies.
- Prepared detailed cost estimates for project amendments, ensuring alignment with contractual obligations.
- Collaborated with project managers and stakeholders to validate scope changes and their financial impacts.
- Drafted and submitted requests for additional funding to clients, supported by comprehensive cost breakdowns and justifications.
- Reviewed and negotiated cost variances with clients to secure approval for additional project amenities.
- Maintained accurate records of cost adjustments and amendments for audit and compliance purposes.

PROFESSIONAL SKILLS

- **Test Automation:** Selenium WebDriver, Tosca Tricentis, Cucumber, TestNG, JUnit
- **Programming Languages:** Java (OOP Basics, Syntax, TDD, JUnit, Mockito)
- **Databases:** Oracle, MySQL (Queries, Joins, Sub-queries)
- **CI/CD Tools:** Maven, Jenkins
- **Defect Tracking & Collaboration:** JIRA, JTMF, Confluence
- **Operating Systems:** Windows, UNIX (Loops, Functions, Parameters)

EDUCATION

Bachelor's Degree in Finance

Suleiman Demirel University

09/2007 – 05/2012

- Foundation in business, economics, and accounting with a focus on financial management.

LANGUAGE SKILLS

- **Kazakh, Russian**
