WORK EXPERIENCE

Fiserv

2023-2025

Business Process Analyst

- Leveraged SQL and advanced Excel functions (VLOOKUP, Pivot Tables, Power Query) to extract, analyze, and interpret large datasets, identifying root causes of payment failures and reducing recurrence by 70%.
- Developed and automated data-driven reports and dashboards for senior management, enhancing visibility into payment incident trends and improving executive decision-making efficiency by 60%.
- Collaborated cross-functionally with IT, risk, and compliance teams to implement process improvements, ensuring regulatory compliance and operational excellence.
- Utilized business intelligence (BI) tools and data visualization techniques to track key performance metrics, optimizing workflows and enhancing operational resilience.

MMIT

2020-2023

Senior Data Analyst

- Managed and optimized formulary data workflows using Editor software, ensuring seamless data access for insurance providers and enhancing operational efficiency by 70%.
- Performed rigorous quality assurance (QA) checks on database updates, ensuring compliance with industry regulations and reducing data discrepancies by 50%.
- Leveraged data validation techniques to maintain high standards of data integrity, accuracy, and consistency, supporting critical decision-making for healthcare and pharmaceutical clients.
- Collaborated with cross-functional teams to refine data management processes, improving system reliability and reducing turnaround time for formulary updates.

Amighini Architectural

2018-2020

Office Administrator

- Oversaw front desk operations, serving as the primary point of contact for clients and vendors, ensuring a seamless and professional office experience.
- Managed multi-line communication systems, efficiently directing inquiries and enhancing client engagement and satisfaction.
- Coordinated with executive leadership and cross-functional teams to support business operations, contributing to a well-organized and high-functioning office environment.
