WORK EXPERIENCE

Software QA Engineer Intern January 2024 – Present
Reelly.io, Remote

- Ensure software quality across all stages of development in an Agile environment
- Create and execute test cases in TestRail based on business requirements and technical specifications. Perform functional, UI, and usability testing to validate application stability and user experience
- Log, track, and verify defects in Jira, collaborating with developers to ensure timely resolution
- Utilize Chrome DevTools to inspect UI elements, analyze network traffic, and debug JavaScript errors
- Engage in daily SCRUM meetings to discuss test progress, findings, and blockers with the team
- Conduct cross-browser and multi-device testing to ensure compatibility and optimal performance
- Work closely with developers to triage defects, prioritize fixes, and enhance software quality

Recovery Services Case Manager May 2024 – March 2025
Regional Health Systems, Merrillville, IN

- Coordinated multidisciplinary treatment plans to ensure each step was completed correctly and on schedule, requiring clear communication across teams
- Managed a caseload of 25+ clients per month, conducting thorough assessments and maintaining 100% on-time documentation accuracy while exceeding the required 100-hour client productivity target by 20% in January and February
- Maintained detailed and accurate client records, progress notes, and case reports

Case Manager June 2023 - May 2024
Indiana State Prison, Michigan City, IN

- Managed and maintained meticulous documentation of incarcerated individuals' records, ensuring 100% accuracy and confidentiality
- Coordinated and streamlined assessment procedures for 50+ cases per month, demonstrating the ability to follow structured processes, verify compliance, and identify discrepancies
- Communicated with multidisciplinary teams and external stakeholders, resolving issues and ensuring compliance

Customer Care Relations Specialist July 2018 - June 2023
Polyair, Chicago, IL

- Maintained 100% accuracy in high-volume data entry and record-keeping, ensuring data integrity and consistency
- Consistently exceeded performance KPIs, achieving 100% grading on phone calls against an 80% target, reflecting strong adherence to quality standards and attention to detail
- Utilized CRM software for data tracking and analysis, demonstrating expertise in system navigation and structured data validation
