- ✓ Microsoft Certified System Engineer (MCSE)
- ✓ GOLD Program – Completed internally by Genpact
- ✓ Customer Orientation Program – Conducted by People Factor Pvt. Ltd.
- ✓ Microsoft Vista HOL Workshop – Conducted by Microsoft

Professional Experience

GENPACT LLC, Dallas TX
Senior Manager, IT Transition & M&A

Aug 2015 – Present

Key Responsibilities:

- ✓ **Leading IT Transitions across Multiple Regions and Acquisitions:** Oversee IT transitions and integrations across multiple regions, including North America (USA, Mexico, Brazil, Guatemala, Canada, and Costa Rica), Europe (UK, Germany, Poland, Bulgaria), and Australia.
- ✓ **IT Due Diligence Lead:** Lead due diligence efforts including the creation of Statement of Work (SOW), data collection, identifying roadblocks, mitigation of security concerns, and oversight of network, domain, messaging, and user integrations.
- ✓ **IT Transition Strategy Lead:** Develop and present IT transition strategies to senior leadership, ensuring alignment with business objectives, effective risk management, and adherence to both internal and external compliance standards.
- ✓ **HR Team Collaboration:** Partner with HR teams to utilize PeopleSoft software for seamless user integration, ensuring strict adherence to company policies throughout the onboarding process.
- ✓ **Lead Full Life Cycle Projects:** Oversee the end-to-end project lifecycle for large-scale, complex talent technology and transformation initiatives, employing agile methodologies for design, testing, and implementation. Develop comprehensive project plans using Microsoft Project and continuously monitor progress to ensure successful project completion.
- ✓ **Project Planning and Management:** Document and manage the project plan, resources, timeline, and budget. Oversee risk management, track actions, issues, and decisions, ensuring timely resolution and escalation when necessary.
- ✓ **Cross-Functional Collaboration:** Collaborate with I&L, InfoSec, Operations, and Technology teams to deliver efficient technology solutions. Responsibilities include updating status reports, facilitating project meetings and workshops, and supporting the user acceptance testing process.
- ✓ **Strategic Advisory Role:** Serve as a strategic advisor, collaborating with subject matter experts to ensure effective Talent representation during the preparation, design, and testing workshops.
- ✓ **Change Management Coordination:** Work closely with the change management team to strategize and execute communications and training initiatives, ensuring a seamless implementation and positive user experience.
- ✓ **Team Oversight:** Lead and coordinate PMO resources and contractors to ensure timely delivery of project milestones, adherence to budget, and the highest quality standards.
- ✓ **Post-Deployment Support:** Partner with the project team to plan and execute post-deployment hyper care support, along with ongoing sustainability and release management strategies.

Key Achievements:

- ✓ **AWS Cloud Migration:** Led the migration of on premise applications to AWS for an acquired insurance entity, delivering a highly secure cloud solution with multi-availability zones and multi-region deployments. This initiative significantly reduced operational costs and enabled the decommissioning of on premise data centers. The following steps were undertaken to set up the infrastructure in AWS.
- ✓ **Infrastructure Setup:** Managed the setup of multiple offices across North America, Europe, and Australia. Responsibilities included budget creation, collaboration with Subject Matter Experts (SMEs), designing solutions, and obtaining InfoSec approvals prior to implementation.
- ✓ **Site Shutdowns:** Successfully led the closure of over 15 offices across multiple regions, ensuring seamless transitions and minimizing operational disruptions.
- ✓ **ISAE 3402 Compliance:** Played a key role in successfully completing ISAE 3402 audits, securing compliance certification, and obtaining assurance reports for the company.
- ✓ **IT Transition Playbook:** Developed and implemented an IT Transition Playbook that outlines detailed processes for setting up IT infrastructure and decommissioning sites, streamlining future acquisitions and transitions.
