

Professional Summary

Enterprise Storage Specialist with 20+ years of experience optimizing complex storage environments, including SAN, NAS, Fiber-Channel Networks, and data migrations. Expertise in designing, implementing and supporting scalable storage solutions aligned with customer needs and emerging technologies. Seeking to contribute to an industry leader in cloud computing and enterprise storage focused on innovation and customer excellence.

Results-driven Technical Project Manager with expertise in leading cross-functional teams to deliver complex IT projects on time and within budget. Skilled in project planning, execution, and stakeholder management with a strong technical background in infrastructure, and system integration.

Work Experience

Solution Architect - Artech - Kyndri (*Full time, 03/2014 - 12/2024*)

Enterprise Storage Support & Infrastructure Management

- Increased storage uptime 99.999% by leveraging tools like INA, IBM Spectrum Control, SANNav, and SATHC reducing downtime incidents by 20%
- Skilled in managing **IaaS** on **IBM Private Cloud** and both **IaaS** and **PaaS** environments on **Microsoft Azure Cloud**, with expertise in resource optimization, enhanced security, and scalability. Proficient in utilizing Azure-native tools and implementing hybrid cloud strategies to deliver seamless operations and robust business continuity.
- Skilled in managing **Pure Storage** solutions, ensuring high performance and scalability. Expertise in optimizing storage environments and integrating Pure Storage arrays into private cloud infrastructures.
- Ensured 100% SLA compliance, maintaining uninterrupted operations, and boosting client retention through reliable storage performance and proactive monitoring
- Reduced storage costs by up to 30% through the strategic implementation of intelligent tiering and thin provisioning, freeing resources for strategic initiatives.
- Oversaw a large-scale Storage Area Network (SAN) infrastructure of IBM SVC, DS8000, V7000, XIV, A9000, IBM Flash System, with over 5 PB of storage and 2,000+ fiber channel ports, 100+ devices, 200+ global accounts, ensuring 24x7 seamless operations across Cisco and Brocade environments.
- Improved performance, reduced latency, and enhanced resource utilization through streamlined processes.

Disaster Recovery and Data Integrity

- Delivered operational resilience through advanced disaster recovery strategies, achieving a 99.99% service availability and reducing potential financial losses approximately by 20%.
- Ensured data integrity with robust validation processes, minimizing data breaches and errors by 95%

Leadership and Change Management

- Empowered teams by implementing mentorship programs and targeted knowledge-sharing sessions, increasing efficiency and bridging critical skill gaps.
- Conducted in-depth RCA's to eliminate recurring outages, cutting downtime by 20% and minimizing associated costs
- Delivered seamless integration of new hardware and firmware upgrades, maintaining 100% operational continuity and keeping the company ahead of industry standards.
- Proactively minimizing risks through continuous monitoring and redundancy checks, achieving a 20% reduction in system vulnerabilities and ensuring a secure storage environment.

SAN Focal - Artech - IBM · Full-time (*Full time, 07/2006 - 02/2014*)

- Managed support and escalation for McData, Brocade, and Cisco devices across 40 global data centers, supporting 400+ customers.
- Managed and optimized virtual machine (VM) storage systems, ensuring high availability and performance across enterprise environment
- Designed and implemented VM server infrastructure solutions, improving operational efficiency and scalability
- Ensured optimal performance by maintaining up-to-date (n-1) firmware on all devices, achieving 99.999% uptime and consistently meeting SLA requirements.
- Led critical break-fix resolutions, restoring service with a 99% success rate within SLAs, while ensuring redundancy availability and adherence to precise zoning best practices.
- Collaborated with customers to approve firmware upgrades, resolve compatibility issues, and ensure seamless execution during approved change windows.
- Oversaw INA, CISCO FM, and DM upgrades, preparing comprehensive best practice documents and sharing knowledge with the team to enhance operational excellence.
- Maintained accurate inventory for 500+ SAN devices and over 4,000 ports, ensuring scalability and streamlined operations.
- Coordinated with vendors to purchase additional license features, ensuring alignment with operational needs and scalability.
- Managed enterprise-level data backup and recovery solutions using IBM Spectrum Protect (TSM) to ensure data integrity and availability across multiple environments, including on-premises and cloud.
- Designed and implemented robust backup strategies, including full, incremental, and differential backups, achieving 99.99% data recovery reliability for critical systems.

Senior Implementation Specialist - EMC Corporation *(Full time, 08/2004 - 06/2006)*

- To configure over 20+ high scale clients for storage solutions including EMC CLARiiON CX Series, Symmetrix DMX Series, NAS (Celerra NS500), Brocade, Mcdata & Cisco Fiber channel switches
- Delivered impactful results, significantly enhancing customer satisfaction by improving system efficiency, reliability, and scalability in diverse IT environments.
- Delivered over 15+ customer training sessions on EMC Storage, clustering, Windows NT, and networking, boosting end-user competency by 12%.
- Oversaw estimation, scheduling, cost control, and resource capacity planning, reducing project overruns by 12%
- Oversaw estimation, scheduling, cost control, and resource capacity planning, reducing project overruns by 15%

Senior Project Manager - TATA Consultancy Limited *(Full time, 10/2000 - 07/2004)*

Project Management

- Directed over 5+ complex IT projects with cross-functional teams and external stakeholders, achieving a 95% on-time delivery rate
- Proactively identified and mitigated risks, maintaining project schedules with a 99% adherence rate.

Stakeholder Management

- Provided weekly project updates to all stakeholders, ensuring alignment and timely resolution.
- Collaborated with vendors, including IMMOLS, Indian Air Force, WESEE, and Air India, achieving seamless integration and a 10% improvement in project efficiency.
- We installed a clustering solution for Airfare and Navy across 7 locations, enabling the customer to control their inventory management system and reduce transportation and management costs by 14%.

Technical Expertise

- **Storage Systems:** Proficient in IBM DS series, IBM A9Ks, SVC (Storage Virtualization), XIV, V5000 series, Pure Storage Flash Arrays, Cisco MDS, Brocade, EMC CLARiiON, Symmetrix, DMX, and networking solutions
- **IaaS on IBM Private Cloud** and both **IaaS** and **PaaS** environments on **Microsoft Azure Cloud**

- **Storage Management:** DSCLI, IBM SVC Management tools, INA, SANNav, IBM Network Advisor, IBM Spectrum Control, Fabric Watch, CISCO Fabric Manager, CISCO Device Manager, Software Defined Storage, IBM Storage Tier Advisor, Navisphere, Power Path, Snap View
- **Project Management:** MS Project Scrum Management, Jira and Agile project Management
- **Cloud Computing:** IBM Private Cloud and Microsoft Azure
- **Monitoring:** IBM Spectrum Control, SNMP Monitoring, SAT HC, Netcool
- **Operating Systems:** Windows & Linux

Awards

- Service Excellence Awards in June 2014 and November 2015 for outstanding contributions to global accounts
- Received multiple appreciation letters from esteemed organisations including AMEX, JLR UK, Macy's, WWK, POR UK etc.

Education

- Bachelor of Engineering in Computers (India)

Certifications

- **ITIL Certified:** Expertise in IT Service Management.
- **Cloud Platforms:** Microsoft Azure
- **Project and Agile Tools:** MS Project, Jira Management, and Agile Services Management
- **Storage Solutions:**
 - Brocade Certified Network Engineer and Fabric Administrator
 - Cisco MDS Series Administrator and Architect, Cisco Certified Network Associate (CCNA).
 - IBM Virtualized Storage Technical Specialist
 - IBM XIV Management
 - EMC Proven Professional (Implementation Specialist, Presales, Associate).
 - IBM XIV Technical Specialist
 - Compaq ASE Certification, CLARiiON Foundation Implementation
- **Microsoft Certified Systems Engineer (MCSE):** Proficiency in Windows infrastructure.
