Los Angeles, CA

SUMMARY

Results-driven IT professional with 5 years of experience as an SAP BASIS Consultant, transitioning into **data-driven roles**. Adept at **analyzing complex problems**, optimizing enterprise processes, and supporting technology transformations. Experienced in managing large-scale data-initiatives and translating insights into business impact. Excited to bring **problem-solving** and **enterprise IT expertise** to data-focused challenges.

EDUCATION

Master of Science – Computer Science

May 2025

California State University, Long Beach, CA

Bachelor of Engineering – Computer Science & Engineering

June 2018

Reva ITM, Bengaluru, IN

SKILLS AND EXPERTISE

Languages & Libraries: Python (NumPy, Keras, TensorFlow, Pandas, Scikit-learn, matplotlib, PyTorch, Seaborn), R (ggplot2).

Databases: Oracle 11g/12g, MySQL, SAP HANA, DB2, MSSQL Server

Operating System: Linux, Unix, Windows.

Analytical & ETL/ELT Reporting Tools: Microsoft Excel (VLookup, Pivot Tables), Tableau, Power BI

Other skills: Machine Learning, Deep Learning, Statistical Modeling, ServiceNow, SAP Business Intelligence, Datalake

Big Data/Cloud Technology: Snowflake, Data Warehouse, Amazon Redshift, Apache Spark, AWS, Azure

WORK EXPERIENCE

California State University

April 2024 - Present

Graduate Assistant

Long Beach, CA

- Managed student and faculty data in Microsoft Excel, using **PivotTables** and formulas to organize and analyze information efficiently.
- Designed **charts** and **graphs** to provide data insights, track academic trends, and support informed decision-making.
- Improved data accuracy and reduced manual work by **10+ hours** per week using Excel functions like **VLOOKUP** for better reporting.

Infosys Private Limited

Feb 2022 - July 2023

Senior Associate Consultant

Bengaluru, IN

- Executed **support package installations** and **kernel upgrades**.
- Conducted end-to-end **System Refresh** of the ECC system.
- Installed and configured SAP Diagnostic Agents across **20+ SAP systems**, enhancing system monitoring.
- Implemented **Early Watch Alert (EWA) reporting** for the production systems, enabling proactive issue detection.
- Led **PO upgrades** in production and non-production systems.

Accenture Solutions Private Limited

Dec 2018 – Feb 2022

Application Development Analyst

Pune, IN

- Performed daily health checks of R/3 systems and proactively **resolved 15+ incidents** per week using Service Now.
- Configured and optimized **RFC connections**, background jobs, and processed bottleneck jobs.
- Managed **SAP User Administration** for 100+ users, reducing unauthorized access incidents.
- Configured and streamlined TMS, ensuring **95% error-free transports** across multiple SAP landscapes.
- Upgraded** Wily Introscope in SAP Solution Manager, enhancing system performance monitoring.

PROJECTS

Facial Expression Recognition | NumPy, ImageDataGenerator, Keras, TensorFlow, Seaborn, Matplotlib

- Developed and trained a **Convolutional Neural Network (CNN)** for facial expression recognition, achieving **85% accuracy** on the dataset through data augmentation and hyperparameter tuning.

Smart City Project | Zookeeper, Kafka, Apache Spark, Docker, Python, Amazon Glue, S3, IAM, Amazon Redshift

- Built a real-time **data streaming pipeline** to capture, process, and visualize vehicle, GPS, emergency, weather, and camera data, enabling seamless insight for urban mobility and safety.

Reddit Data Pipeline | Reddit API, Apache Airflow & Celery, PostgreSQL, Amazon S3, Athena, Redshift, Glue.

- Engineered a scalable **ETL pipeline** to extract, transform, and load Reddit data, automating real-time data ingestion, processing, and querying for efficient real-time analytics.

Sales Dashboard | Tableau

- Designed** an interactive Tableau **dashboard** to analyze sales data, visualizing year-over-year trends, product performance, and profit margins to enable data-driven business decisions.
