EXPERIENCE

University Health Network

Toronto, ON

Project Manager – Clinical Trials

August 2023 – Present

- Managed 12 industry-sponsored oncology pharmaceutical, bio-tech, drug development and investigator-initiated clinical trial projects valued up to \$50M; at phases 1-3 involving investigational products and medical devices
- Executed high quality project delivery tasks and deliverables from start-up to close-out including coordination of site initiation & monitoring visits, site audits, drafting of SOPs, templates & consents, data entry and analysis
- Drove cross-functional collaboration across teams to align regulatory submissions and startup functions, ensuring a robust site activation strategy and plan.
- Executed integration of protocol amendment requirements, on time site activations and managing site activation readiness status as well as proactively identifying and mitigating risks

Project Analyst – Epic HIS

April 2022 – August 2023

- Led agile transformation and standardized methodology across 3 teams for a study screening of 700+ patients
- Facilitated go-live readiness activities for 500+ research staff including trainings & drop-in sessions, creating tip sheets and one-pagers, daily scrum for login labs, demos and presentation

NSF International

Ontario, CA

Scrum Master/ Analyst

Jan 2021 – Apr 2022

- Moderated multiple scrum events and ad hoc meetings to resolve any barriers encountered by 2 scrum teams
- Monitored progress using burndown charts, team velocity, Sprint backlog health and defect summary reports
- Implemented innovative coaching techniques that led to 60% increase in product distribution and productivity

Region of Waterloo

Ontario, CA

Associate Project Manager

Jun 2020 – May 2021

- Facilitated 5+ quality improvement initiatives, increasing care delivery efficiency by 20% through implementation of streamlined workflows and data-driven process enhancements.
- Managed COVID-19 vaccination program, aligning with organizational strategy to vaccinate 150+ staff members and achieve 100% compliance within the target timeframe.

CBI Health

Ontario, CA

Senior Analyst

Jun 2020 – May 2021

- Led 10+ cross-functional clinical teams in end-to-end process improvement initiatives using Lean Six Sigma, resulting in a 25% average increase in operational efficiency and a 15% reduction in care delivery delays.
- Facilitated 20+ workshops and coaching sessions on data literacy and continuous improvement, contributing to a 30% increase in staff engagement and a 20% improvement in process compliance across departments

Classic Life Care

British Columbia, CA

Data Analyst

May 2016 – May 2018

- Analyzed 200+ client inquiries to improve response times by 30% and enhance user satisfaction
- Categorized 500+ incoming requests and assessed team workloads boosting process efficiency by 25%.
