
Professional Summary

Results-driven Quality Assurance professional with 16+ years of experience leading QA efforts across eCommerce, retail, SaaS, healthcare, gaming, and other application platforms. Proven track record of delivering high-quality native and web experiences through strategic test planning, detailed execution, and strong cross-functional collaboration. Skilled in manual testing, triaging automation issues, refining automation scripts, and identifying where automation provides the most value. Adept at mentoring teams, streamlining QA processes, and ensuring exceptional user experiences through scalable, detail-oriented quality practices in Agile, Waterfall, and Hybrid environments. Known for adept problem-solving and an unwavering commitment to excellence, and for serving as a trusted partner in fostering strong client relationships and driving project success.

Quality management • Test management • Testing strategy • Test planning • Root cause analysis • Process development • UAT
Analytical process improvement • Contract management • CD/CI • E2E • Defect tracking • Quality Systems • Vendor management
Understands the closing QA window • Ensuring quality assurance standards and requirements are respected

Experience**Quality Assurance/BA, KFC (Contract via Insight Global)****Feb 2024 — Present** Remote

- Supported the Order Flow team by leading manual testing across new features, regression, smoke, and UAT—contributing to a 56% reduction in production issues and a seamless end-to-end digital ordering experience on a platform serving over 1,000,000 registered users.
- Triaged and maintained automation test scripts, enhancing test suite stability and accelerating resolution of automation failures
- Authored user stories and detailed test cases aligned with project requirements and evolving business needs
- Fostered ongoing, close collaboration with development teams, product owners, managers, and leadership
- Collaborated with developers and cross-functional partners to identify and resolve bugs early in the development cycle
- Actively participated in Agile ceremonies during bi-weekly sprints, driving continuous delivery and iteration
- Mentored junior QA team members, sharing knowledge, improving processes, and supporting onboarding to strengthen overall team capability

Staff Quality Assurance Engineer, Detect Inc.**Feb 2022 — Jan 2024** Remote

- Spearheaded cross-functional collaboration with the development team, ensuring the delivery of exceptional product quality
- Developed and implemented a robust Quality Management System for a team of 8+ developers across Vercel, TestFlight, Firebase, and GitHub, incorporating both automation and human-led review processes
- Led quality efforts across internal and external iOS, Android, and web applications, supporting COVID-19 testing and eCommerce operations through QA processes and strategies that reduced critical bugs by 42%, improved release velocity by 30%, and contributed to a 95% on-time delivery rate
- Played a key role in delivering over 6 web-based projects for enterprise-level eCommerce clients, ensuring punctual execution, tailored features, and seamless ERP integration for exceptional performance and user experience
- Launched new sales channels across multiple platforms by aligning with SaaS partners and coordinating cross-functionally with procurement, manufacturing, and commercial teams—delivering results on time in fast-paced environments.
- Led end-to-end testing of a medical device with integrated firmware, Bluetooth, Serial, and Wi-Fi functionality, ensuring seamless compatibility, optimal performance, and compliance with IEC 62304 standards

Quality Assurance Test Manager, Walmart (Contract)**Nov 2019 — Feb 2022** Remote

- Demonstrated adeptness in efficiently coordinating and leading offshore teams to achieve project objectives effectively
- Spearheaded ongoing enhancement and evolution of QA processes, maintaining accountability for KPI achievement
- Provided time estimates and test schedules, following department processes and procedures
- Researched, documented, and recommended test procedures for new projects
- Participated in Project Glass: one of the biggest undertakings at Walmart to rewrite the customer experience integrating Curbside pickup and Walmart+ features into the application with 24/7 team coordination

BO VALLIN

NY, NY 10019 • Bo-Vallin@outlook.com • 646-657-8524

www.linkedin.com/in/BoVallin/

- Shaped and improved the current A11y testing process, coordinating teams, triaging request tickets, and providing time estimates

Quality Assurance Test Manager, Jet.com (Contract)

Oct 2017 — Nov 2019 Hoboken, NJ

- Served as Test Manager responsible for overseeing both React native and React SPA web testing operations
- Effectively coordinated and supervised offshore test teams, ensuring streamlined and efficient testing processes
- Contributed to the development and enhancement of Quality Assurance procedures, fostering continuous improvement within the testing domain, helping achieve daily releases and enabling rapid delivery cycles
- Demonstrated proficiency in creating and refining comprehensive test plans and test scenarios, aligning them with project requirements
- Accurately provided time estimates and meticulously crafted test schedules, adhering to established departmental protocols
- Systematically identified and documented detected issues during testing phases, actively collaborating with the development team to achieve prompt and successful resolutions

Senior Quality Assurance Analyst, Ralph Lauren

Jan 2012 — Oct 2017 New York, NY

- Successfully led mobile and web-based testing initiatives for the esteemed Global Ralph Lauren eCommerce sites
- Efficiently reviewed and prioritized all defects across US and EU stores while adeptly overseeing multiple remote test teams
- Conducted a comprehensive array of testing methodologies—including usability, functional, UAT, and regression—across multiple devices and operating systems
- Took charge of the QA effort during the redeployment and localization of mobile stores, ensuring seamless and successful implementation
- Crafted comprehensive test plans and testing scenarios, guaranteeing meticulous alignment with project objectives
- Accurately provided time estimates and diligently scheduled testing activities, consistently adhering to established departmental processes and procedures
- Researched, documented, and recommended test procedures for new projects
- Managed and coordinated the use of uTest/ Applause subscription and worked closely with many third-party vendors
- Supervised and coordinated testing operations for seven localized mobile web stores spanning across the US and EU
- Proactively authored automated scripts utilizing Selenium IDE, further enhancing testing efficiency and accuracy

Quality Assurance TE III – Team Lead, uTest Inc

Jan 2008 — present Remote

- Performed in-depth application assessments and meticulously identified defects across diverse platforms, including iPhone, iPad, Android, Mac, Windows, and various other devices
- Performed usability, QA, functional, and load testing across multiple operating environments
- Effectively directed and supervised remote testing teams of 10 to 100 members
- Enhanced customer relationships by proficiently overseeing management, fostering effective communication, adeptly prioritizing tasks, providing timely status updates, accommodating work scope changes, and implementing process enhancements
- Identified and filed more than 2,570 bugs, with a near-perfect acceptance rate
- uTest Tester of the Year (2011) and iOS Tester of the Year (2011)
