

Brahmaiah Vallepu

UX/UI Designer

(551) 344-6391 | vallepu273@gmail.com

Summary

A passionate Designer with 4 years of experience designing intuitive digital experiences across mobile and web platforms. Proficient in user research, prototyping, and usability testing, with expertise in tools like Figma, Sketch, and Adobe Creative Suite. Known for leading design workshops, improving onboarding processes by 15%, and optimizing user interfaces through data-driven insights. Passionate about creating visually engaging, user-focused designs that drive measurable outcomes.

Skills

DESIGN SKILLS: User Interface Design, Wireframes, Interaction Design, Graphic Design, Motion Design, Visual Design, User Centred Design (UCD), Illustrations, Iconography, Responsive Design, Typography, WCAG, Branding, Design Systems, micro-interactions

RESEARCH SKILLS: User Research, Competitive Analysis, Usability Testing, User Interviews & Surveys, Empathy Maps, Information Architecture, Analytics & Metrics, Persona, Quantitative & Qualitative Research, Storyboarding, Heuristic Evaluation, Ergonomics, Stakeholder Interview, AI for Design

TOOLS: Figma, InVision, Framer, Balsamiq, Uxpin, Zeplin, Sketch, Axure, Miro, Ceros, Hotjar, Adobe Creative Suite (XD, Photoshop, Illustrator, InDesign, After Effects, Sensei)

Experience

UX/UI Designer Mar 2024 – Present
CitiusTech USA

- Collaborated with cross-functional teams to revamp the UX of a clinical data analytics platform, resulting in a 25% boost in care team adoption rates across multiple provider groups.
- Led design thinking workshops with clinicians, patients, and stakeholders to create user personas and journey maps for a chronic disease management dashboard, improving targeted outreach by 20%.
- Redesigned the UI of a healthcare claims portal using insights from usability testing and A/B experiments, reducing average task completion time by 30% and improving user satisfaction scores (CSAT) by 18%.
- Utilized tools like Figma, Adobe XD, Balsamiq, and InVision to prototype EHR interface components, enabling faster stakeholder feedback cycles and decreasing design iterations by 20%.
- Designed accessible UI components adhering to WCAG 2.1 standards, increasing accessibility compliance and enhancing the experience for users with disabilities.
- Delivered low-to-high fidelity wireframes, interaction models, and style guides for a mobile telehealth application, contributing to a 40% increase in mobile user retention.
- Partnered with QA and development teams in Agile sprints to validate UI implementations, ensuring pixel-perfect delivery aligned with design specifications and clinical workflows.

UX/UI Designer Nov 2019 – Jul 2022
Intex Technologies India

- Designed user interfaces for mobile applications supporting smart devices and wearables, enhancing usability and reducing navigation errors by 30% across Android and iOS platforms.
- Conducted extensive user research, including interviews, surveys, and data analysis, to build behavior-driven personas and refine product design strategy for new smart TV remote apps.
- Created wireframes, storyboards, and interactive prototypes using Sketch and Axure, which streamlined stakeholder approval processes and reduced design rework cycles by 20%.
- Developed responsive web interfaces for the Intex e-commerce portal and customer support systems, contributing to a 25% increase in mobile purchase conversions.
- Delivered end-to-end UX workflows in Agile sprints, collaborating with developers and QA to ensure UI consistency and timely project delivery across product lines.
- Led usability testing sessions to validate interface decisions, resulting in a 25% improvement in task success rates and boosting customer satisfaction ratings for smart home applications.
- Defined reusable design components and UI guidelines that improved team productivity and consistency across multiple product platforms

Education

Masters of Information Sep 2022-May 2024
Pace University, New York, U.S.A | Specialization: **Human-Centered Design**

Bachelor of Animation Aug 2016- Nov 2020
J.N.A.F.A.U, Hyderabad, Telangana, India Specialization: **Animation**
