Summary

Energetic and self-motivated aspiring project manager with a record of success across a diverse history of roles. Proven to be capable of building and maintaining productive professional relationships, quickly becoming proficient in new systems, and empowering teams to contribute to organizational goals.

Professional Experience

Love's Travel Stops & Country Stores	Oklahoma City, OK
Senior Business Systems Analyst/Project Manager	Since May 2021
- Supported a major rollout project which deployed an in-house developed point of sale and inventory management system to 400+ locations across the United States. - Led a support establishment project for emerging lines of business which resulted in faster average resolution times and lower reopen rates. - Led the onboarding and training of 5 contracted employees which resulted in the support team moving from Monday-Friday 8-5 coverage hours to 24/7 support coverage. - Oversee maintenance of the team's application documentation; regularly following up with SMEs and facilitating knowledge sharing where necessary. - Currently leading mobile phone project which will provide 6 field locations with wireless smartphone devices. - Regularly attend scrum ceremonies and relay project updates to larger support team as informed stakeholders. - Perform regular audits between two ticketing systems to ensure no support needs are left unaddressed.	
Operations Manager	
- Briefly worked in a store management role before transitioning to IT support role. - Oversaw daily store, restaurant, and truck care operations. - Analyzed monthly P&L reports to identify opportunities for revenue growth, cost reduction, waste elimination, or overall increases in efficiency. - Analyzed weekly 13-week reports to identify trends in customer feedback, labor utilization, and specific business metrics such as average time to depart for truck care and average speed of service for restaurant. - Served as a mentor to shift leads and other aspiring front-line leaders.	
Walmart Stores, Inc	Stillwater, OK
Team Lead	1/2016-4/2021
- Coordinated remodel of facility over the course of 6 months. - Coordinated re-key initiative resulting in increased facility security through least privilege access controls. - Began working for Walmart at age 16 as a cart pusher, spent time in over 10 different roles culminating in support manager and team lead roles throughout college.
