SUMMARY

Self-driven, results-oriented engineer with extensive experience in Monitoring/Observability tools, including on-premise installation, integrations, upgrades, and monitor configuration. Over 15 years of project management experience.

EDUCATION

Shippensburg University (PA) - B.A., Mathematics/Computer Science Concentration

SKILLS

- **Monitoring Tools** OBM/OMi/BSM, APM, BPM, OpsB SaaS, SiteScope, New Relic, Zabbix
- **Dev Tools** Git, cvs, PVCS, VSS
- **Languages** Perl, shell scripting, Java
- **OS** Red Hat Linux, Windows
- **Project Mgmt** MS Office 365, JIRA, Confluence, Agile
- **Other** Service Manager (Change, Incident, Problem), Ansible, troubleshooting

EXPERIENCE

Monitoring Tools Engineer (Cloud Operations) **OpenText, Gaithersburg, MD**
September 2009 – July 2024

- Installed, upgraded, and administered OpenText monitoring and observability tools including Operations Bridge Manager (OBM), DataFlowProbe, APM, BPM, and SiteScope.
- Configured Roles, Groups, and integration to Active Directory.
- Developed SBEC rules, Event Filters, View Filters, and Dashboards for NOC/Support team visibility to events.
- Created and updated OM Policy Templates (REST WS, log file, opcmsg) and performed Policy and Aspect management tasks.
- Developed RTSM queries and views for both dashboards and enrichment rules.
- Monitored system performance, especially related to Oracle RAC database.
- Developed training and documentation for end users.
- Installed and upgraded OBM versions 2022.05, 2020.10, 2020.05, OMi versions 10.1x and 10.0x, and BSM 9.13 on Linux servers.
- Planned, coordinated, and executed OBM failover tasks to DR data center with minimal downtime.
- Implemented New Relic to OBM event and topology integration, performed user admin tasks in New Relic.
- Supported Zabbix to OBM event and topology integration.
- Configured integrations from OBM to OpsB SaaS using DataFlowProbe.
- Installed APM on-premise, performed various APM and APM SaaS administration tasks.
- Created TruClient and VuGen scripts for APM monitoring.
- Installed and upgraded SiteScope v11.3x on both Linux and Windows servers, configured monitors and reports, and performed user administration.
- Installed HP Diagnostics server and agent components.

Project Manager (Identity and Enablement Solutions) **GXS, Gaithersburg, MD**
April 2004 – September 2009

- Created and maintained Engineering Project Schedules from input spanning seven Engineering teams across Gaithersburg and Bangalore, India locations for new GXS Trading Grid service.
- Produced weekly status reports, managed weekly status meetings for Engineering, reported project deliverable status and tracked issues until resolution.
- Created Document of Understanding, coordinated System Design creation, and collaborated with Operations on production deployment requirements.

- Defined Use Cases for Trading Grid Support component and authored System Design guidelines for Packaging, Logging, and Monitoring capabilities.
- Provided HP OpenView for Operations (OvO) and SiteScope monitoring support for various Exchange implementations, including SLA support for specific customers.

Program Manager (ICP Support Services) **GE GXS, Gaithersburg, MD**
May 2002 – April 2004

- Provided technical support for Requirements and Settlements applications for GE customers.

Team Leader (ICP Operations & Management) **GE GXS, Gaithersburg, MD**
March 2000 – April 2002

- Technical lead for ICP component development, implemented monitoring, performed SCM tasks.

Project Leader, GE Information Services, Rockville, MD
May 1999 – March 2000

- Project Management, vendor coordination, and CM tasks for ICP.

Project Leader, GE Information Services, Rockville, MD
April 1994 – April 1999

- Technical lead and PM tasks for IBP, POP3 mail system beta test, and C++ messaging system.

Programmer/Project Leader, GE Information Services, Rockville, MD
June 1985 – April 1994

- Developer and Project Leader for QUIK-COMM email system implemented in FORTRAN 77.

TRAINING

- **Professional** - Effective Communication, Kepner-Tragoe Problem Solving, Applied Creative Thinking, GE Corporate Entry Leadership Conference II, Project Leadership I, Project Leadership II, Facilitative Leadership, Leadership Through Influence, GXS Six Sigma - DMAIC and DFSS
- **Technical** - Unix Fundamentals, C Programming, C++ Programming, Advanced C++ Programming, Object Oriented Analysis/Design using UML, JavaScript, Java, Web Security, Sun NetDynamics, BEA WebLogic, XML Certification, webMethods Integration Server, GCP fundamentals

RECOGNITION

- Over 15 Management/Project Awards throughout career, ICE Team Award, 2000
- GE Elfun Society New Member Award for Outstanding Elfun Society Service, 1994
- Graduated Magna Cum Laude, Shippensburg University
