 - **Technologies:** MVVM, Clean Code Architecture, Agile Development, Responsive UI
 - **Tools:** Google Analytics, PowerBI, ChatGPT, Gemini AI, Canva, RunwayML
-

Professional Experience

Grascope Industries LTD

Chief Technical Officer

February 2025 – Present | Port Harcourt, Nigeria

- Lead technical strategy, refactoring codebases to align with industry best practices and clean architecture standards.
- Transform Figma designs into responsive UI implementations, ensuring pixel-perfect accuracy.
- Integrate third-party APIs and payment systems (Stripe, PayStack) for seamless functionality.
- Deployed *Haulway* to App Store and Google Play, collaborating with Backend and UI/UX teams in an Agile environment.
- Maintain comprehensive code documentation and deliver rapid updates to meet project deadlines.

Sendez

Co-Founder & CTO

October 2024 – Present | Rivers State, Nigeria

- Spearheaded technology development, rebuilding Customer and Rider apps in Flutter within 3 months, now live on Google Play.
- Refactored codebase to MVVM architecture, enhancing scalability and maintainability.
- Enabled API integrations with third-party businesses, ensuring secure and efficient data exchange.
- Drove research and adoption of cutting-edge technologies to advance platform capabilities.

Onyion

Founder

April 2024 – Present | Nigeria

- Developed a real-time social connection app using Flutter, prioritizing user privacy and security.
- Designed and prototyped UI/UX in Figma, launched on Google Play, with App Store release in progress.
- Implemented Firebase for backend services and GitHub for version control, ensuring robust app performance.
- Leveraged Google Analytics and PowerBI to analyze user behavior and optimize features.

Freelance

Flutter Developer

April 2020 – Present | Nigeria

- Delivered complex UI designs, including Kuda app clones, showcasing expertise in responsive and modern interfaces.
- Built a volunteer app to connect users with mechanics nationwide, integrating location-based services.
- Developed a church app, iterating designs based on user feedback to improve performance and usability.
- Collaborated with Flutter developers, Figma designers, and project managers to deliver high-quality volunteer projects.

Sundry Markets Limited

E-commerce/Digital Merchandising Manager

June 2020 – April 2024 | Rivers State, Nigeria

- Co-created an e-commerce platform for Market Square, integrating 29+ stores with a seamless online-offline experience.

- Intermediate with developers to align platform features with business needs, optimizing for speed and scalability.
 - Analyzed data with Google Analytics and PowerBI, improving customer performance by 30%.
 - Implemented logistics strategies, reducing delivery times from next-day to 2-hour same-day delivery.
-
