Babes-Bolyai University
BA in Computer Science
Cluj-Napoca, 2018 - 2021

VALENTIN ALDEA

Senior Android Developer • Contractor • Freelancer

ABOUT ME

I am a Senior Android Developer / contractor / freelancer with **3+ years of experience**, only interested in remote work.

I use my expertise, skills, and passion to design and implement top-of-the-line software solutions for companies worldwide.

Do you need software solutions for your business? **Let's connect!**

WORK EXPERIENCE

Senior Android Developer

Dec 2024 - Feb 2025

Bluetooth connectivity application | Emerson

The client, an American company specializing in professional-grade tools and equipment for the construction and plumbing industries, faced low satisfaction among employees and users due to a hard-to-test and occasionally crashing application.

- **Enhanced employee and user experience by 3X** by migrating old database to a modern one, resulting in cleaner code that is less prone to bugs.

Skills: Android, Java, Kotlin, ORMLite, Room, RxJava, Coroutines, Dagger

Senior Android Developer

Jul 2023 - Oct 2024

Bluetooth connectivity application | Emerson

The client, an American company specializing in professional-grade tools and equipment for the construction and plumbing industries, lacked a mechanism to securely lock tools, and users desired their tools to remain protected even if stolen.

- **Ensured an 80% increase in security and control** by implementing a feature for lockable tools, both during user interaction with the mobile application and in the background mode.
- **Boosted the number of new customers by 15%** by indirectly creating a network of mobile phones capable of blocking any nearby tool.

Skills: Android, Java, Kotlin, Retrofit, ORMLite, Gson, RxJava, Coroutines, Jetpack Compose, Dagger, XML

Bluetooth connectivity application | Emerson

The client, an American company specializing in professional-grade tools and equipment for the construction and plumbing industries, required a modern way to register tools using QRs due to declining engagement between purchasing a product and accessing it in the mobile application.

- **Reduced registration time by 2X** by designing processes that minimize user interaction within the mobile application.
- **Increased customer satisfaction by 25%** by displaying immersive animations while users wait for their tool to be accessed.

Skills: Android, Java, Kotlin, Retrofit, Gson, RxJava, Jetpack Compose, Dagger, XML
