

DHARANI THALLAPALLY

Data Analyst

 dharani.work19@gmail.com  +1(469) 806-1166  Denton, TX 76205  LinkedIn

PROFILE

Dedicated and results-driven Data Analyst with 4+ years of experience in analyzing complex data sets, generating actionable insights, and driving data-driven decision-making. Proficient in Python, R, SQL, and a wide range of data visualization tools. Strong expertise in data analysis, statistical and data modeling, data-driven decision-making, Data mining, Machine Learning with large data sets of Structured and Unstructured data, Data Acquisition, Data Validation, Predictive modeling, and Data Visualization.

PROFESSIONAL EXPERIENCE

CVS Health 08/2024 – present | United States
Data Analyst

- **Optimized SQL queries and data models** to analyze prescription sales, flu trends, weather data, and demographics, improving inventory management across **pharmacy locations**.
- **Designed and maintained relational databases** for real-time forecasting, aligning with OLAP principles to enhance analytics workflows and query efficiency.
- **Automated ETL pipelines** using **Azure Data Factory (ADF) and SSIS**, ensuring seamless data integration from multiple sources with high accuracy and reliability.
- **Conducted exploratory data analysis (EDA)** using **SQL, Python, and DBVisualizer**, uncovering key trends in seasonal demand, regional variations, and demographic factors impacting sales.
- **Deployed and managed time-series forecasting models** (Facebook Prophet, LSTM) on AWS Lambda, enabling real-time demand predictions integrated with **S3 and API Gateway**.
- **Developed dynamic dashboards** in **Power BI and Tableau**, allowing pharmacy managers to proactively monitor stock levels and reduce stockouts or overstock situations.
- **Enhanced data quality and performance**, implementing **Great Expectations and SQL-based validation**, reducing discrepancies and improving query execution in **Azure Synapse and Teradata DW**.

Tatvasoft 05/2019 – 07/2022 | India
Data Analyst

- **Interpreted and analyzed large datasets** using SQL, Python, and advanced Excel tools (pivot tables, macros), identifying key market trends that influenced **high-impact product development strategies**.
- **Automated ETL workflows** with **Airflow and SSRS**, streamlining data ingestion into AWS Redshift and Snowflake, **reducing processing time by 40%** and improving data accuracy.
- **Developed dynamic dashboards** in **Power BI and Tableau**, providing leadership with real-time insights into market trends and competitive analysis, leading to **data-driven strategic decisions**.
- **Applied NLP techniques** (LDA, VADER, TextBlob) to analyze unstructured text data, **improving sentiment analysis accuracy by 30%** and uncovering hidden patterns in industry trends.
- **Executed and optimized SQL queries** for large-scale data warehouses, enhancing query performance and **reducing execution times by 50%**, enabling faster predictive analytics.
- **Created advanced DAX queries in Power BI**, enabling dynamic reporting and drill-down analysis, which **improved forecasting accuracy for technology adoption trends**.
- **Deployed scalable ETL pipelines** on AWS using **Lambda, S3, and Redshift**, ensuring **real-time accessibility of analytical outputs**, enhancing decision-making efficiency.
- **Implemented data quality monitoring** with **Great Expectations and custom SQL scripts**, detecting anomalies and **improving data consistency by 35% across ETL pipelines and dashboards**.

SKILLS

- Methodology:** — SDLC, Agile, Waterfall
- Language:** — Python, R, SQL, Qlik, VBA
- Business Intelligence Tools:** — Tableau, Power BI, Teradata, QlikView, Cognos, SSRS, SSIS, MicroStrategy, TM1, Informatica, | Advanced Excel, Hyperion
- Software** — Postman, Excel, Qlik, NLG, Voice User Interface (VUI), ServiceNow, SharePoint
- Libraries:** — NumPy, Pandas, SciPy, Matplotlib, Seaborn, Scikit-learn, SAS
- Cloud Platforms:** — AWS: S3, EC2, Redshift, Azure: Azure Data Lake, Azure SQL Database, Azure DevOps (ADO), GCP
- IDE's:** — Spyder, Jupyter Notebook, PyCharm, VS Code, Sublime Text
- Tracking / Other Tools:** — JIRA, Git, MS Office, OLAP, OLTP, Google Analytics, ETL, SSIS, SAS, SAP ERP, Miro , CRM, Snowflake, Aha! , Visio
- Soft Skills:** — Data solutions, Data Warehouse, Data Collection, Data Pipelines, Data Visualization, Data Cleaning, Data Wrangling, Project management, Oral and written communication skills
- Operating Systems:** — Windows, Linux

EDUCATION

Masters in computer science 04/2024 | United states
GRAND VALLEY STATE UNIVERSITY

Bachelor of Technology (B.Tech) 04/2022 | India
CVR COLLEGE OF ENGINEERING
