

Vikram Nathani

Full Stack .NET Developer

+1 (513) 438-0597 | vikramnathani1998@gmail.com | [LinkedIn: linkedin.com/in/vikram-nathani-376b73229](https://www.linkedin.com/in/vikram-nathani-376b73229)

PROFESSIONAL SUMMARY

Driven Full Stack .NET Developer with **5+ years of experience** in designing, developing, and optimizing high-performance web and Windows applications. Adept in **C#, .NET Core, ASP.NET MVC, and Web API**, with demonstrated expertise in **DevOps automation, cloud computing, and security practices**. Proven track record of **reducing production defects by 30%, increasing deployment efficiency by 20%, and enhancing API response times by 15%**. Passionate about **mentorship, collaboration, and building scalable, user-centric applications** using Agile methodologies.

EDUCATION

Masters in Computer Science

Texas A&M University - Corpus Christi | January 2022 – August 2023 | 3.58

Relevant Coursework:

- **Advanced Software Engineering:** Developed enterprise applications using **C#** and **.NET Core**.
- **Web Application Development:** Designed full-stack apps with **React.js** and **Node.js**.
- **Information Assurance & Network Security:** Implemented secure coding practices and role-based access controls.

Bachelors in Computer Science

GMR Institute of Technology – Razam

TECHNICAL SKILLS

- **Languages:** C#, Java, VB.NET, PL/SQL, Kafka
 - **Web Technologies:** ASP.NET Core, MVC, HTML, CSS, JavaScript, Angular, ReactJS, JQuery, Bootstrap
 - **Cloud Platforms:** Azure, AWS, GCP, Azure DevOps
 - **Databases:** SQL Server, Oracle, MySQL, MongoDB, Azure Cosmos DB
 - **Middleware & APIs:** Web API, WCF, REST, SOAP, ADO.NET
 - **CI/CD Tools:** Jenkins, Azure Pipelines, GitHub Actions
 - **Containerization:** Docker, Kubernetes, PowerShell
 - **Version Control:** Git, SVN, TFS
 - **Testing & Reporting:** NUnit, Selenium, SSRS, Crystal Reports
 - **UI Frameworks:** Razor Views, Knockout.js, Vue.js
-

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer

CVS Health – Woonsocket, RI | June 2022 – Present

- **Architected** multi-threaded web and desktop applications using **C#, .NET Core, and ASP.NET MVC**, boosting performance by **15%**.
- Designed and optimized **RESTful/SOAP APIs**, decreasing response times by **15%** and enabling seamless communication.
- **Integrated Jenkins pipelines** to automate deployments, improving delivery speed by **20%**.
- Managed **IIS server deployments**, achieving **99.9% uptime** through robust authentication and error-handling mechanisms.
- Collaborated with cross-functional Agile teams to streamline workflows and align solutions with business needs.
- **Mentored** junior developers and QA engineers, implementing **new quality metrics** that reduced defects by **30%**.
- Developed engaging **user interfaces** using **Knockout.js** and **Razor Views**, enhancing customer satisfaction scores.
- Managed **20+ automation pipelines**, ensuring rapid resolution of production issues and continuous delivery.

Key Achievements:

- Spearheaded process improvements across **8 teams**, improving collaboration and productivity by **25%**.
- Improved database performance by **35%** through optimized SQL queries and stored procedures.
- Introduced **role-based access control** with Active Directory, strengthening security across applications.

Full Stack .NET Developer

Sreehith Consulting – Hyderabad, India | September 2019 – December 2021

- Developed and maintained **enterprise-level web and backend systems** using **C#, ASP.NET Core**, and MVC patterns.
- Reduced API integration time by **40%** through modular development with **REST and SOAP APIs**.
- Implemented **Active Directory role-based security**, reducing unauthorized access incidents by **20%**.
- Designed a case management system with **ASP.NET MVC 4.0**, meeting all business requirements.
- Built **responsive UIs** with **Vue.js, AngularJS**, and Bootstrap, improving engagement by **15%**.
- Deployed containerized applications using **Docker and Kubernetes**, ensuring scalability on **GCP**.
- Automated deployments with **PowerShell scripts** and monitored performance using **DynaTrace**.

Key Achievements:

- Delivered **50+ releases** across development, test, and production environments.
- Achieved a **95% project success rate** through proactive client collaboration.
- Optimized SQL Server performance by **35%**, ensuring faster query execution and improved system performance.

PROJECTS

Gym Scheduler Android Application | August 2022

- Developed a scheduling app using **Android Studio** and Firebase Cloud Messaging, supporting **50+ daily active users**.
- Achieved **99.8% uptime** with robust error handling and data synchronization using **MongoDB**.

University Course Management System | March 2020

- Created a web-based course management system using **React.js, Node.js, Express.js**, and MongoDB.
- Managed **300+ users** with **100% uptime during peak periods** through backend optimizations.

CERTIFICATIONS

- **Microsoft Certified Azure Data Engineer Associate (DP-203)** – 2023

SOFT SKILLS

- **Collaboration:** Works seamlessly in Agile teams, aligning development goals with business requirements.
- **Problem Solving:** Proven ability to troubleshoot complex technical challenges and resolve production issues efficiently.
- **Leadership:** Mentored and guided junior developers, increasing team productivity by **25%**.
- **Communication:** Clearly conveys technical concepts to both technical and non-technical stakeholders.
- **Adaptability:** Quickly learns new technologies and frameworks, demonstrated through proficiency in multiple JavaScript frameworks and cloud platforms.
- **Time Management:** Efficiently manages competing priorities to meet tight deadlines.
