Professional Experience

Flight Fare Analyst

07/2024 – 10/2024

Travelogin

- Proficiently analyzed flight prices and market trends to optimize fares and drive revenue growth.
- Developed a side project using Streamlit to manage inventory, generate profit and loss reports, and create interactive visualizations, resulting in a 40% improvement in financial decision-making efficiency.
- Interacted with customers to create comprehensive travel plans, including detailed expenses and itineraries, ensuring a seamless and personalized travel experience.

Data Science Trainee

01/2024 – 06/2024

Rishabh Software

- Acquired proficiency in SQL, machine learning, and data science fundamentals, gaining hands-on experience in data analysis and model development.
- Explored data visualization tools like Power BI to create interactive dashboards, effectively transforming complex data into actionable insights for better decision-making.

Projects

Anime Analysis & Recommender System

- Developed an anime recommendation system leveraging TF-IDF vectorization and cosine similarity to analyze user preferences and generate personalized suggestions, achieving an 85% accuracy in recommendation relevance based on user feedback.
- Built a Streamlit app for user interaction and implemented data preprocessing, feature engineering, and recommendation generation, improving system efficiency and reducing response time by 20%.

Flight Fare Prediction

- Developed a machine learning model to predict flight ticket prices, utilizing advanced regression techniques such as XGBoost, which achieved an R^2 score of 0.8374.
- Conducted comprehensive data preprocessing, feature engineering, and correlation analysis, identifying key predictors like Duration, Total Stops, Airline, Source, and Destination.

Nike Insights Platform

- Created a Power BI dashboard to analyze Nike's product details, sales, regional distribution, and stock trends with interactive visualizations and filters for customized insights.

Education

B.Tech. Computer Science and Engineering

06/2019 – 06/2023

Babaria Institute of Technology, (Gujarat Technological University)

CGPA: 9.12/10

Technical Skills

Amazon Web Services | Python | Machine Learning | Data Visualization | NumPy | Pandas |
Matplotlib | Data Analytics | Microsoft Excel | Power BI | SQL | Git | HTML/CSS

Certificates

Python Programming 📄 | SQL 📄 | Graphic Design 📄
