PROFESSIONAL SUMMARY

Software Development Engineer with over 4 years of experience in building high-performance applications using Java, .NET, and DevOps tools. Skilled in developing and optimizing scalable, high-transaction systems for enterprise clients, with expertise in RESTful API design, CI/CD automation, and backend infrastructure optimization. Proven ability to collaborate across international teams and deliver reliable, production-ready code within Agile frameworks.

SKILLS

Technical Skills

- **Programming Languages:** C#, Java, TypeScript, HTML, CSS
- **Scripting:** JavaScript, Python, VBA
- **Frameworks & Libraries:** ASP.NET Core, Angular, Bootstrap, Node.js
- **Databases:** MySQL, SQL Server, PostgreSQL
- **CI/CD & DevOps Tools:** Azure DevOps, GitHub, VSTS
- **Testing & Automation:** Unit Testing, Xunit, NUnit, Moq, Automation Testing
- **API Development:** RESTful API design, development, and integration using Postman, swagger.
- **UI Development:** UI design, front-end integration, responsive development

Soft Skills: Adaptability, Communication, Mentorship, Analytical Thinking, Time Management, Leadership, Self-Driven Learning

EXPERIENCE

CSG Systems International, Bangalore

Software Development Engineer | DevOps (.NET)

July, 2023 – Oct, 2024

- Developed RESTful web services and applications using C#, .NET Core Web API, TypeScript, and MySQL.
- Transitioned project management workflows from Jira to Azure DevOps.
- Planned and setup test automation framework in Azure DevOps CI/CD pipelines.
- Implemented VBA and Python macro scripts for automation.
- Conducted regression testing to ensure software quality across critical updates.
- Collaborated with international, cross-functional teams, ensuring alignment across time zones for on-call support and project success.
- Supported in troubleshooting customer-reported issues in production environments.
- Support for confluence scroll document-macro templates.
- Participated in Agile sprint planning, aligning solutions with product and business needs.
- Worked with Postman and Swagger for API testing and documentation.

Cognizant Technology Solutions, Kochi*Associate Software Engineer | Full Stack Developer (.NET)***Nov, 2022–June, 2023**

- Designed and implemented ASP.NET Core APIs, integrated with Angular and TypeScript for full-stack solutions.
- Enhanced backend support for applications using PostgreSQL and MySQL databases
- Successfully refactored legacy monolithic applications into micro-services architecture, enhancing scalability and flexibility.
- Conducted code reviews, debugging, and ticket triaging, ensuring adherence to code quality standards.
- Mentored team members, facilitating knowledge-sharing and boosting team productivity.

Cognizant Technology Solutions, Kochi*Programmer Analyst | Developer (.NET)***Nov, 2021–Nov, 2022**

- Migrated legacy frontend applications into micro-frontends using Angular 12.
- Implemented server and client-side validations
- Ticket triaging and ensured > 80% code coverage with NUnit and Moq, improving code reliability and reducing production bugs.

Cognizant Technology Solutions, Kochi*Programmer Analyst Trainee | Trainee***Nov, 2020–Nov, 2021**

- Trained in Java and .Net frameworks
- Setup Functional and Unit test case for code coverage
- Supported legacy application analysis, resolving client-reported issues related to web application functionality.

EDUCATION**• Bachelor of Technology in Computer Science and Engineering****2016 – 2020**

College of Engineering, Adoor, Kerala, India
GPA: 8.44/10

• Senior School (12th Grade)**2014 – 2016**

St. Antony's Public School, Kottayam, Kerala, India
Percent: 91.8%
