

CERTIFICATIONS

- CompTIA Security+ and CompTIA A+
- Security Blue Team: Blue Team Level 1 (BTL1)
- Microsoft SC-900: Security, Compliance, and Identity Fundamentals
- AWS Certified Cloud Practitioner
- Workato Automation Pro 1

RELEVANT EXPERIENCE

Project

SOC Analyst Homelab

- Configured a Windows-based virtual machine and installed Sysmon to simulate attacks.
- Deployed and configured Wazuh as my SIEM for security monitoring and log analysis.
- Integrated TheHive for efficient case management, incident tracking, and collaborative threat analysis.
- Established telemetry integration between Sysmon and Wazuh and simulated credential dumping activities using Mimikatz.
- Used Shuffle as my SOAR tool to automate the extraction of hashes from Mimikatz alerts and perform reputation analysis using VirusTotal.

Certification

Security Blue Team: Blue Team Level 1 (BTL1)

- Developed hands-on experience in log analysis, network traffic monitoring, and identifying Indicators of Compromise (IOCs) with tools like Wireshark, Autopsy, Powershell, and more.
- Utilized Splunk to detect, analyze, and respond to simulated security incidents.
- Applied defensive security techniques aligned with the MITRE ATT&CK framework.
- Executed incident response procedures using appropriate tools to effectively identify, contain, and mitigate security incidents.

WORK EXPERIENCE

Vectra AI • San Jose, CA

IT Specialist

May 2023 - Present

- Conduct first-level analysis and triage of phishing email incidents to identify and mitigate risks.
- Initiate and manage monthly simulated phishing campaigns using KnowBe4 to improve employee awareness and increase company security posture.
- Monitor and respond to alerts detected by Microsoft Defender and CrowdStrike to mitigate any suspicious activities and ensure timely resolution to potential threats.
- Successfully transitioned organizational MFA systems to hardware tokens and authenticator apps for enhanced security within Microsoft Entra ID.
- Configure SSO for enterprise apps via Microsoft Entra ID to streamline user access and increase security across cloud-based apps.
- Utilize Microsoft Sentinel to analyze system logs for identifying potential security threats.
- Assist in preparing reports and evidence for internal SOC 2 audits.

Milestone Technologies Inc. @ Workday • Pleasanton, CA

Tier 2 IT Support Technician

September 2022 - April 2023

- Provided efficient resolution of hardware, software, and network-related issues for onsite employees.
- Managed inventory and weekly audits of IT assets, ensuring compliance with organizational standards.
- Provisioned 30+ MacBook and Windows laptops per day for employees using Jamf and Intune.
- Configured laptops with necessary security tools, including MDM solutions.
- Supported MFA setup and user education, contributing to overall IT system security.

Jones IT • San Francisco, CA

IT Consultant

April 2022 - September 2022

- Diagnosed and resolved technical issues across hardware and software platforms.
- Administered client services in Google Admin and Microsoft 365 portals to streamline IT operations.
- Ensured proper security configurations during laptop deployments.
