

ELIZABETH NSIAH

IT SECURITY ANALYST

Location: Bronx, NY | **Email:** elizabethnsiah2016@gmail.com | **Phone:** +1 (347) 993-0295 | **LinkedIn**

PROFESSIONAL SUMMARY:

As an IT Security Analyst with over 5 years of experience, I specialize in protecting enterprise environments through comprehensive threat detection, incident response and risk mitigation strategies. I am skilled in conducting vulnerability assessments, managing SIEM tools and ensuring compliance with standards like PCI DSS and NIST. My expertise extends to Third-Party Vendor Risk Management, where I evaluate vendor security, manage compliance requirements and reduce risks associated with external partners. I am proactive, detail-oriented and dedicated to upholding data security and regulatory compliance to safeguard critical business assets.

- **Threat Detection and Incident Response:** Skilled in identifying, analyzing and responding to security incidents, minimizing potential impact on business operations.
- **Vulnerability Management and Risk Mitigation:** Proficient in conducting vulnerability assessments, implementing remediation strategies and managing security controls to reduce risk exposure.
- **Third-Party Vendor Risk Management:** Experienced in assessing vendor security postures, managing third-party compliance and mitigating risks associated with external partners.
- **Regulatory Compliance:** Well-versed in maintaining compliance with industry standards such as PCI DSS, NIST and other regulatory frameworks, ensuring organizational adherence to security best practices.
- **Security Policy Development:** Experienced in developing and implementing security policies and procedures to strengthen organizational security posture and ensure compliance.
- **Security Awareness Training:** Skilled in creating and delivering security awareness programs to educate employees on best practices, reducing the likelihood of human error and security breaches.
- **Collaboration and Communication:** Strong interpersonal skills, enabling effective collaboration with cross-functional teams and clear communication of security risks and strategies to stakeholders.
- **Security Monitoring and SIEM Management:** Expertise in utilizing SIEM tools to monitor, analyze and report on security events, enhancing threat visibility and response efficiency.

EDUCATION:

- **Bachelor Degree in Computer Science** **June 2011**
Central University Accra, Ghana

CERTIFICATION:

- CISA
- Security+
- PMP

SKILLS:

Security Tools & SIEM:	Splunk, Nessus
Risk & Compliance:	PCI DSS, NIST, ISO 27001, SOX Compliance, Risk Assessment, Vulnerability Management, Third-Party Vendor Risk Management, Security Audits
Incident Response:	Threat Detection, Incident Analysis, Forensic Investigation, Malware Analysis, SOC Operations, Incident Handling, Phishing Analysis
Networking & Security:	Firewalls (Palo Alto, Cisco ASA), VPNs, IDS/IPS, Network Segmentation, Security Groups, Zero Trust Architecture, TCP/IP, DLP (Data Loss Prevention)
Collaboration & Communication:	Slack, Microsoft Teams, Trello, Jira, Confluence, ServiceNow, SharePoint, Email Security, Technical Writing, Reporting Skills
Scripting & Automation:	Python, Bash, PowerShell, Regular Expressions (Regex), Shell Scripting
Monitoring & Analysis:	Wireshark, Nessus, OpenVAS, OSINT Tools, Packet Analysis, Vulnerability Scanning Tools, Endpoint Detection (EDR) Tools

PROFESSIONAL EXPERIENCE:

DELL TECHNOLOGIES

ROLE: IT SECURITY ANALYST

JAN 2022 – CURRENT

- Conduct comprehensive threat detection and incident response activities, identifying and mitigating over 150 security incidents per quarter to ensure minimal disruption to business operations.
- Manage and monitor SIEM tools, including Splunk and Nessus, to analyze security logs and identify potential threats, improving threat detection efficiency by 30%.
- Perform vulnerability assessments and penetration testing, identifying critical vulnerabilities and coordinating remediation efforts to reduce overall risk exposure by 25%.
- Conduct third-party vendor risk assessments, evaluating the security posture of over 50 vendors annually to ensure compliance with company security policies and industry standards.
- Lead security audits and compliance checks aligned with PCI DSS, NIST and ISO 27001 standards, achieving a 98% compliance rate across internal systems and processes.
- Develop and execute incident response playbooks, reducing average incident response time by 40% and enhancing the overall security posture of the organization.
- Collaborate with cross-functional teams to implement security best practices, including network segmentation and data loss prevention (DLP), enhancing data security by 20%.
- Utilize scripting and automation skills in Python and PowerShell to streamline security monitoring processes, reducing manual workload by 35% and improving response times.
- Manage endpoint security through EDR tools, ensuring 100% coverage and rapid detection of malicious activities across all corporate devices.
- Create detailed security reports and dashboards for senior management, providing insights into threat landscapes and security performance metrics to improve decision-making processes.
- Train and mentor junior security analysts, enhancing team capabilities and increasing incident handling effectiveness by 25%.

DHL (DALSEY, HILLBLOM AND LYNN)

ROLE: SECURITY ANALYST

MAR 2019 – DEC 2021

- Executed comprehensive security evaluations and compliance audits across IT systems, attaining a 95% adherence rate to organizational security standards and regulatory requirements.
- Analyzed security alerts and logs using SIEM platforms, effectively identifying and addressing over 200 security incidents each year to maintain operational integrity.
- Deployed and managed advanced endpoint security solutions, guaranteeing full coverage across all organizational devices and significantly reducing exposure to cyber threats.
- Partnered with IT departments to formulate and implement robust security protocols, leading to a 30% decline in reported security incidents.
- Conducted routine vulnerability assessments and ethical hacking exercises, uncovering significant security weaknesses and facilitating remediation actions that decreased vulnerabilities by 20%.
- Facilitated employee training programs on cybersecurity awareness and best practices, engaging over 300 staff members and enhancing compliance with security policies by 25%.
- Oversaw risk evaluations for third-party vendors, analyzing the security frameworks of more than 40 partners to ensure alignment with corporate security guidelines and reduce potential risks.
- Designed and established incident response strategies, which led to a 35% improvement in response times for security events, bolstering the organization's defense mechanisms against cyber threats.
- Generated comprehensive monthly security performance reports for executive leadership, delivering actionable insights on threat patterns and recommending enhancements to security measures.
- Coordinated multidisciplinary teams on security enhancement initiatives, successfully introducing innovative security technologies that improved detection and response capabilities by 40%.
- Collaborated with external compliance auditors, ensuring the organization met all necessary documentation and evidence requirements, leading to successful audit results.
