

Syed

Houston, TX, USA

Professional Summary

Dynamic Test Engineer with over 10 years of experience in testing and validating telecommunication and electronic devices, including extensive work with MTK and QUALCOMM platforms. Demonstrated expertise in various testing domains such as Design, Display, Audio, Battery, Network, and Performance. Adept at comparing devices against reference standards, capturing logs, and managing change requests (CRs) to enhance product quality and usability. A detail-oriented professional seeking to contribute to high impact projects at Motorola through effective testing strategies and problem-solving skills.

Core Competencies

- Device Testing & Validation (MTK & QUALCOMM platforms)
- Log Analysis & Issue Resolution
- Defect Tracking & CR Management
- Testing Domains: Design, Display, Audio, Battery, Network, Performance
- Benchmarking & Competitive Analysis
- Test Case Development & Execution
- Cross-Functional Collaboration
- Test Automation & Scripting

Professional Experience

Super Test Engineer

Motorola Mobility, Chicago, IL

March 2019 – October 2024

- Led the testing efforts for MTK and QUALCOMM-based devices, focusing on various modules such as Design, Display, FPS, Storage, and Audio.
- Conducted rigorous testing of device functionalities, including Audio-Calling, Audio Multimedia, Battery, Interoperability, Network, and Performance.
- Performed third-party competitive benchmarking and usability soak testing to ensure the devices meet industry standards and client requirements.
- Collaborated with design and development teams to compare test results against reference devices, identified issues, and raised Change Requests (CRs) for resolution.
- Generated comprehensive test reports, documenting results, and providing actionable

feedback to improve overall device performance.

Senior Test Engineer

GTL Americas, Chicago, IL

January 2016 – February 2019

- Executed manual and automated tests on various devices, emphasizing on robust log analysis and CR management.
- Developed and maintained test plans, test cases, and automated scripts to validate device functionalities.

Software Test Engineer

Vardhman Investments Inc., Chicago, IL

June 2012 – December 2015

- Focused on end-to-end testing of software applications, contributing to quality assurance and process improvement initiatives.

Education

Bachelor of Science in Computer Science

University of Illinois, Chicago, IL

2011

Certifications

- Certified Software Test Engineer (CSTE)
- ISTQB Certified Tester – Advanced Level

Technical Skills

- Programming Languages: Python, Java, SQL
- Testing Tools: Selenium, JIRA, TestNG
- Telecom Protocols: LTE, 5G, VoIP
- Operating Systems: Windows, Linux, Unix
