

Herny Chavarria

Experienced computer engineer with deep knowledge in data engineering, ETLs, and 4+ years working with Google Cloud Technologies.
Also experienced DBA with expertise on MS SQL Server platforms.

Work Experience

Walmart

Data Governance | August, 2022 - Present

- Designed and automated data pipelines utilizing Google Dataproc.
- Data pipelines orchestration using Airflow and Hadoop.
- Ensuring data integrity, security, and privacy and handling sensitive data for supply chain metrics.
- Delivering analytics reports and dashboards using visualization tools like Tableau for key business developments on transportation and fixture excess.
- Business knowledge in a Data Steward role for Next-Gen systems, transportation, 4-walls, workforce tracking, and inventory health.
- Conducted quality checks for ingested tables in data lakes using Spark.

Coopenae

Database Administrator | March 2020 - August 2022

- Administration and Maintenance of SQL Server Platform, from SQL Server 2005 to SQL Server 2019 versions.
- Process documentation, code versioning using Git, incorporating a standardized process for approvals and production deployments.
- Continuous integration and continuous deployment for engineering projects using Git.

UST Global - Walmart Contractor

Master Data Analyst | July 2019 - March 2020

- Big data analysis using Hive, Pyspark.
- Data migration using sqoop for external data sources.
- ETLs creation for data migration from Oracle and SQL Server to SAP using Microsoft SSIS.

GPI Consultores

SQL Server DBA Consultant | July 2015 - July 2020

- Installation and configuration of SQL Server environments.
- Monitoring, best practices, and preventive maintenance of SQL Server instances and Windows servers.
- Modeling and development of database solutions.

Educational Background

Bachelor's Degree in Engineering in Information and Communication Technologies

Universidad Técnica Nacional
Dec 2015

Specialization in IT Project Management

Universidad Estatal a Distancia
In progress

Skills

Technical Skills

- SQL (Advanced)
- ETL Tools
- Data Warehousing
- Data Analytics
- Database Administration

Tools/Software

- GCP Technologies
- Airflow
- Hadoop
- Spark
- PySpark
- SQL Server
- SSIS
- Python
- Oracle
- Batch Scripting
- Tableau
- Github
- Jira

Languages

- English (Proficient)
- Spanish (Fluent)

Certification/Short Courses

- GCP Dataproc (2023)
- The fundamentals of Airflow (2024)
- Walmart Internal GCP and BigQuery Training courses (2023)
- Spark (2024)
- Administering Microsoft SQL Server (2018)
- Developing Microsoft SQL Server Databases (2018)
- Administering a SQL Database infrastructure (2019)
- Microsoft Azure Fundamentals (2021)
