

ILANAGAI ILANGO VAN

17725 Shafer Drive, Pflugerville, TX 78660

Phone: (518) 360 7610

Email: vilanagai@gmail.com

OBJECTIVE

Enthusiastic and diligent self-starter with 2+ years' experience in designing and developing applications using c#.net, Mulesoft, and Salesforce. Skilled at team collaboration while working in person as well as independently in a remote environment.

CAREER SUMMARY

- Experience in object-oriented programming; software design patterns; software development and web development; developing, testing, and debugging code; designing interfaces; administering systems and networks, and agile methodologies.
- Experience in Database Concept Oracle (PL/SQL).
- Strong understanding of Software Algorithm Design, Software Performance Tuning, Software Design, Software Debugging, Software Development Fundamentals and Software Testing.
- Excellent in overall Software Development Life Cycle (SDLC) experience, Conceptual and Logical Thinking
- Goal-oriented, self-motivated, and able to work independently and as a team member.
- Involved in review meetings with Project Managers and developers for Project Planning, Coordination, and implementation of various agile methodologies.

EDUCATION

- Master of Science in Information Technology (Madras University, Chennai, TN, India)
- Bachelor of Science in Information Technology (Bharathidasan University, Trichy, TN, India)

TECHNICAL SKILL SET

- C, C++, C#, .NET Core, HTML, Python, Java, Azure DevOps
- Demonstrated proficiency in programming languages like C#.NET, PL/SQL
- Knowledge of Visual Studio 2019/2022 and Postman
- Mulesoft, Salesforce

PROFESSIONAL EXPERIENCE

Information Technology Specialist (Programmer)

New York State Insurance Fund (NYSIF), Albany, NY, USA.

(Dec 2020 - July 2023)

- Developed well-engineering code for WebAPI applications that is readable, well-commented, and adheres to standards in c#.net, delivering high availability and performance in agile technology.
- Tested and maintained existing applications with responsibility for troubleshooting and debugging in the Salesforce and MuleSoft platforms.
- I developed and deployed a new API as per the requirements in MuleSoft.
- Designed and maintained front-end and back-end service for Data sync process daily basis using Azure service bus and Active batch.
- Discussed issues in development, and solved problems arising during design, testing, and implementation.

Software Programmer

National Informatics Centre (NIC), Chennai, TN, India.

(Jan 2007- Dec 2009)

- Contributed to the design and development of client and server database applications
- Provided full software development lifecycle, from concept, design, and testing
- Worked in Core Java (Multithreads, MVC Framework, OOPS Concepts, and Exceptional Handling), SQL Queries, and Database.
- Worked in Java and web technologies such as JSP and Servlet.
- Maintained and updated HTML/ CSS templates regularly and as required.
- Defined objectives by analyzing user requirements; and envisioning system features and functionality.
- Designed, built, and maintained efficient, reusable, and reliable Java code.
- Ensured the best possible performance, quality, and responsiveness of the applications.
- Identified bottlenecks and bugs, and devised solutions to the problems.
