Description

Within my role as a DevOps Engineer I have obtained hands-on experience involving Terraform, using GitHub infrastructure to simplify deployment, and Docker. I am also skilled with AWS services building cloud environments, managing LAMP stack, running bash script as well as optimization of WordPress sites.

Professional Skills

• Terraform • Docker • Jenkins • GitHub repository management • AWS (EC2, S3, RDS, CloudWatch, IAM, VPC, Load Balancers, Lightsail) • WordPress • LAMP Stack • Bash Scripting • CI/CD Pipelines • Python • Linux • Kubernetes

Professional Experience

iCARE Medical / Cloud Engineer

February 2024 - Present

3129 Kingsley Dr Ste 420 Pearland, TX 77584, (346) 202-6001

Manage AWS Cloud Infrastructure: Handle AWS services like EC2, S3, and RDS to keep our cloud environment running smoothly and efficiently. This led to a 40% boost in performance and kept costs in check. | **Automate with Terraform:** Set up and maintain our cloud resources using Terraform, making deployments faster and more reliable. This automation cut down our setup time by 60%. |

Design Cloud Architectures: Create cloud architectures that were both secure and efficient. Use VPCs and IAM to ensure our network was protected and access was properly managed. | **Optimize Load Balancing:** Set up and managed AWS Load Balancers to evenly distribute traffic across our servers, which improved our application's uptime and reliability. | **Scripting for Efficiency:** Write Bash scripts to automate routine cloud tasks, which cut down on manual work and streamlined our operations.

DR Financial Services / DevOps Engineer

July 2023 - January 2024

6035 A Northdale, Houston, TX 77087, (281) 974-4167

Infrastructure Automation: Automated infrastructure deploying with Terraform, cutting deployment times by 60%. |

Containerization: Managed Docker containerization for microservices, enabling scalable and reliable deployments. | **CI/CD**

Pipeline: Built CI/CD pipelines with GitHub Actions, improving release speed and reliability. | **AWS Cloud Management:** Deployed and optimized AWS resources, including EC2, VPC, IAM, and Lambda, boosting performance by 40%. | **Project Leadership:** Led the migration of a legacy app to a containerized microservices architecture on AWS, reducing deployment time by 70%.

ThredUp/ Process Improvement Team

August 2020 - June 2023

580 Horizon Dr Suite 200, Suwanee, GA 30024, 678 809 3441

Inventory Detective: Tracked down and fixed issues with missing items in our automated inventory, using company apps to keep everything accurate and running smoothly. | **Account Auditor:** Checked and audited customer accounts with the help of internal tools to ensure all data was spot-on and up-to-date. |

Customer Support Hero: Handled customer tickets, processed refunds, and resolved issues, using our support systems to ensure a top-notch customer experience. | **Celebrity Orders:** Managed and shipped orders to celebrities, coordinating through our order management system to ensure timely and accurate deliveries. |

Tech Troubleshooter: Fixed tech issues in the warehouse using company software and tools, keeping operations efficient and minimizing downtime. |

Manual Tasks: Logged into manual stations and performed necessary tasks, supporting warehouse operations and maintaining inventory accuracy. | **Leadership and Collaboration:** Supervised team members, hosted meetings to discuss process improvements, and ensured everyone was aligned with our goals.

Education

Georgia Gwinnett College

1000 University Center Ln, Lawrenceville, GA 30043

July 2020 [Continuing]

Major: Business Management Information Systems

GPA: 3.7

South Gwinnett High School

2288 Main St E, Snellville, GA 30078

August 2014 - May 2019

Diploma

GPA: 3.2

Youth Entrepreneurship Group: Member of a group focused on developing business skills and entrepreneurial knowledge.

Business Academy: Participated in specialized business-related coursework and activities.

Honor Roll: Achieved consecutive 4-year Honor Roll status.

Foundation of Economic Education Alumni: Participated in the Foundation of Economic Education program.
